Subject: [Suspected SPAM] Protect Families, End the Shutdown

Dear Senator Scott,

The government shutdown puts the health and well-being of millions of children in jeopardy: services that support children and their families are watching their remaining funds dwindle and are at-risk for expiring.

* The Department of the Treasury is unable to provide tax refunds to low-income and working class families: families are unable to pay their bills and afford child care.

* The Supplemental Nutrition Assistance Program (SNAP) is projected to run to out of funding sometime in February: families will be unable to access healthy food.

I am asking you to reach an agreement to reopen the government and ensure families can access the services promised to them.

Protect families and end the government shutdown now!

Sincerely,
s lowe

Subject: Shutdown

I think it is a disgrace that President Trump is holding federal employees hostage over the border wall. This needs to stop and it starts with Congress and the Senate standing up to Trump and doing the right thing for the American people. I am a registered Republican in Sarasota and I am sick of what is happening in this state and this country.

Subject: Actions Against the Wet'suwet'en and First Nations

Taking a break from Trumpism to ask...

Given the fact that you represent the State of Florida, current home of the Seminole nation and prior home to various tribes persecuted by Spanish missions, such as the Timucua at the mouth of the St Johns River, do you have any remarks for the Trudeau government regarding the recent actions of the RCMP at the UnistotenCamp against the Wet'suwet'en tribal representatives?

I would think the wisdom of the Water Protectors should be a focal point given our own issues with algae blooms and corporate bulldozing of natural wonders, not to mention the overstepping of Government to seize land and invoke the right to eminent domain over long-time residents and inhabitants.

Any chance you'll be making a statement?

Date Edited In Body of Letter EDITED Summer 1999 should be Summer 1998
w/State List Included As Requested by Speaker Nancy Pelosi

January 8-2019

Dear Ladies and Gentlemen:

I Come Humbly Before You,

To Complain about the continuing Torturous hunt to which I am subjected daily all of my life and especially increased significantly on August 31-1999 to date when I was illegally amplified/externalized thought while sleeping at my mother's Long Beach California Apartment neither of us with a criminal record and no notice of intent to do so. The So Called National Security Witnesses who are supposed to be at my disposal are rarely helpful and are contacted immediately and prior to meeting me to harm me in some way as per the Dictates of former Mass Murdering Mole Perpetrator William Jefferson Clinton and his former US Attorney General insisted that these Moles tell on themselves and give me LIVE AID assistance while hurt in this manner via a device of any name commonly also known as the Microwave Brainwave Alteration Device seen by myself in person appearing as a TANK with a FLAT Microwave Dish Atop Roof of Tank first seen at my Niagara Falls New York Apartment Summer of 1998 where I lived until Illegally evicted by President George W. Bush Spring 2007 or 2008. In My 2007, the City of Niagara Falls - New York in conjunction with the City of Niagara Falls - NY stole/towed my 1990 Volkswagen Fox Wagon off my Apartment Parking Lot, and the car was fully paid for and being repaired so I could someday drive it possibly back to California once the severity of torturous hunt subsided as my beloved mother dutifully paid for my rent-food as Mass Murdering Mole former President George W Bush (like all US Presidents and Congress) and his Cabinet and Congress fully supported my work creating Most Trusted Socioeconomic Infrastructure Programs on/off planet with Infinite Life Extension Healing with the good gnome but not enough to initiate Life Extension for the Masses being too meglomaniac, hateful, jealous and sadistically depraved and criminally indifferent toward the our beloved and astounding White European Christian Race especially the White European Christian Race Good Gnome who would try to save her Race against their psychotic wishes and these Moles should be disconnected from the government, whenever possible these Moles should be given Summary Execution, such as the case with WI House Rep Paul Ryan which runs concurrent with the wishes of Congress ashamed of Ryan's behavior and angry he destroyed whatever chances the best of Congress and otherwise lawful Congressional Families had if they save myself and my mother and allowed me to rise to the White House to save what would be left of our beloved White European Christian Race. They mentored me and gave me instructions to have the most dangerous of these Moles removed from Government or the Ballot. Though, I am being too tortured. Today the Bus Driver Driving Back to Downtown Miami gave me unholy heck about Kilo and my need to ride the bus due to Emergency.

Today I traveled to my Storage to Pay One Month Storage and a City of Miami Police Car passed by me as I was waiting for the bus. Unfortunately, lacking the funds I had to ask the Bus Driver to allow me on board free of charge which is what all Bus Drivers do for the Black Homeless especially Bus Routes to/from City of Miami/Miami Beach and Aventura Mall Bus Transit Station, the Black Homeless Shelter of Aventura. Once last year in 2018 or 2017 another City of Miami Police Car drove passed me may miles from their jurisdictioned city. Today, the Storage Management not acting like herself as she too is raped by Donald Trump like my Starbucks Manager in Miami Downtown and she was threatening me as well on behalf of Donald Trump Trump using the illegal brain tap - time clock inclusion technology connected to my person/life all of which is illegal.

Please disseminate a Life Extension healing to myself and my beloved Kilo both of us exhausted and hungry from our trip. Another gift of \$20.00 most uncommon, was given to me so I treated myself and Kilo to dinner, we can barely move. Earlier this morning, Mass Murdering Mole Network Perpetrator Donald Trump took my mind threatening me causing me to forget my stop but while waiting for the bus back enroute to my storage a man gave me \$20.00 allowing me to eat.

House Speaker Nancy Pelosi did state that she wanted all of the States with whom I filed to accept me as an ACTIVE Candidate regardless of whether I have a Vice President due to the Anarchistic circumstances in which we are living. Yet,

she cannot handle the harsh and cruel Donald Trump and she is not happy with the position of House Speaker and she stated that a man cares more about me and my work than a woman. Though, the hunt with Black Ops Tech FEM FETALS such as Actresses Angelina Jolie and Pamela Anderson and Melania Trump always hunting me may cause my murder.

Nancy Pelosi approved of the Brickell Condominium and Ten Million- Fifteen Million US Dollars and she stated Donald Trump is not capable of sticking to any deal and he should not receive any life extension healing and he should be removed and she stated he would around June 2019. Nancy Pelosi was interested in the One Time Life Extension Healing with Age Reversal to 21 years of age with excellent health for age. Nancy Pelosi also instructed me to expect One Million US Dollars maybe more sent to my mailing address by Congress as I have my Post Office Box through April 2019 which Donald Trump wants me to lose as well as my two GMAIL Addresses due FEB-May 2019.

Respectfully,

Silvia Stagg

Subject: Non ending avoidance of facts by Hearing Officer Susan Finch or is this how HC Land Use is decided....

Thank you Ms. Medrano:

We in this Wimauma neighborhood have been ignored by this HO (and whoever else is involved in those decisions) for many years now. We don't understand why. This is my attempt to stop this sick, twisted farce before more damage is done to our neighborhood, the environment and the reputation of Hillsborough County government.

The trail of tears from citizens complaints through failure to apply for permits, to variance requests to seek forgiveness and changing applications, is all a fraud. It is all intended, I believe, to obscure the selfish and decency-blind environmental disaster Mr. Fairfax, Mr. Cremer and Mr. Morrow have conspired to perpetrate on the taxpayers of this county with "ABSOLUTELY NO BENEFIT" to anyone, not even Mr. Fairfax. His legacy, if this is allowed will be an environmental embarrassment.

The recent backdrop here contains VAR 17-1153, approved by HO Susan Finch, who did not follow protocol. That was sent back by the LUAB to be reheard properly. HO Finch used an archaic game show buzzer and flashing light which interrupted my presentation repeatedly, destroying my continuity. Even if I were not hindered by disability, this method is ridiculous. It is asinine to limit NON PROFESSIONAL CITIZENS to such time constraints when the applicant has months and even years to prepare some elaborate "SHOW" of cause.

When this VAR 17-1153 came back before HO Finch, side conversations were clearly about meetings held and actions, requests and decisions that were had without our knowledge and were to be continued without our being informed. That's not "GOVERNMENT IN THE SUNSHINE" that's the reemergence of the "GOOD OLE BOY" network. I note that from time to time the attorneys (approved on a special list to handle these cases) and other professionals are on a first name basis with HC staff and other officials. This can never put "REGULAR" taxpayers at ease in this already difficult series of circumstance. As HO Finch again quickly approved much of this VAR 17-1153 her words clearly showed that she had little interest in the facts we presented as shown by evidence on file and even facts shown by HC staff. Instead her focus was very supportive of the "LAWYERED UP" applicants "PHONY FACTS" and either ignored or belittled the provable statements by those opposed.

In seeking help throughout HC staff in "MANY" departments I see an attitude of at least questions, if not great concern over how this variance system has evolved in the favor of applicants all too willing to skip permit requests in lieu of "ASKING FORGIVENESS", to the detriment of the environment and taxpayers. Were it not for the LUAB we would have no protection whatever, since the "SYSTEM" has failed us in protecting our environment and our properties. Even when the "REAL PROVABLE FACTS" are presented, the HO does not even attempt to certify who is lying and who is pointing to the obvious certifiable facts of the case at hand.

Then when the trail of facts begin to show what is really the cause and effect of truth versus falsehood, the applicant withdraws the VAR 17-1153, to set aside all that has been disproved in this case in order to start fresh and alter the conversation and trail of facts. One indication is as simple as the applicant admitting at one point that the illegally built "HUGE COMMERCIAL METAL FLEET SERVICE GARAGE" was not 18' tall as described by Mr. Cremer and the applicant but measured by HC staff at least 21.3' tall. And yet after that admission, HO Finch continues to attempt to "SLIP THIS THROUGH" in her commentary as 18' tall. I contend that is either further proof of incompetence or deliberate obfuscation of fact. This building cannot under any circumstances remain on 5007 Bonita Dr. as the simple review of the facts proves this property "WAS NEVER" and "IS NOT" used for any legitimate agricultural purpose. Somehow these facts as presented were never verified and Mr. Cremer continues to "KNOWINGLY DECEIVE" the record by "SLIGHT OF WORD" trickery. This is not a game! This will affect the entire community around Dug Creek, an HC flood control project that was completed in 1964 which ultimately required that "NO ELEVATION INCREASE WOULD BE ALLOWED ALONG THIS CREEK DUE TO FLOOD AND SURFACE WATER FLOW DIVERSION"!!! Why then does HO Finch continue to ignore the provable facts and omit all this from consideration or comment in her findings? I find that suspicious to say the least.

HO Finch also ignores the sudden destruction of a protected (HC, FL, US) 46 year old gopher tortoise colony presumably caused by a secret, illegal and unpermitted series of alterations to the 5007 Bonita Dr. property. Why is this of no consequence nor need for investigation?

HO Finch mentions our lack of documentation on some issues yet the HC staff has entered them in the record and opposed, injured taxpayers entered photographs directly disproving the false contentions of Mr. Fairfax, Mr. Cremer and Mr. Morrow. Yet we still note sometimes these people are on first name basis with some staff and officials. Must we as taxpayers research and prove all that the record already shows?

May GOD forbid !! We all know who is responsible here!!

I have a 2' deep pile of paperwork generated over this farcical and maniacal venture over these last 18 months. That is not how a disabled senior and veteran should be required to protect themselves in lieu of the HC government whose mission statement describes their protection by this very failed system. And HO Finch seems unmoved, if not irritated that we keep standing in the way of this diabolical variance approval. One would almost believe her pay day depended on it. So is variance approval the goal here or is it finding and supporting the truth. We out here in citizenland need and have been led to believe this system "HAS OUR BACKS" but all too often we are left with the results of a variance approved based on other

variances previously approved. I have personally attended some of these hearings and watched in amazement as this is accomplished. "ARE YOU KIDDING ME" ? WHY????

HC has been said to carry the reputation on line and arguably historically as the US county which has removed, arrested and or jailed more politicians and officials than any other county in America. You can debate that, try to change that or at least try to find out "WHY".

So here we have a chronology:

1. 14+ years of deliberate illegal land alteration of setbacks, wetlands and code violations
2. Citizen complaints stretching from 2004 to today and ongoing (no actions)
3. Mr. Fairfax warned by myself and others that no elevation change is allowed along the flood plan of Dug Creek. He says "I'll fix it with an earthen berm"
4. SE wetland filled and pond excavated with hydric soils and contaminated fill used as a 400'x100' foundation for CB house forcing surface water flow to be diverted (all w/o permits) neighbors file complaints
5. Elevations shown in false overlay obscuring this diversion (no as built showing huge mountain built for CB house foundation) did Landmark Eng. participate in this
6. Erosion of foundation caused to added elevation, caused by flood surface water flow requires rip rap at west side of illegally excavated pond (w/o permits)
7. Trees begin dying where bank of Dug Creek was built up and sod installed. The only tree living shows as sitting in a hole at the south end of the illegal pond in a hole carved out to allow "root base" to breathe (w/o permits)
8. Aerial of mobile home in middle of the north 1/2 acre falsely called "HISTORIC BARN"
9. Initial dirt driveway was not in nor restricted from movement away from wetland setback
10. Illegal business active on homestead premises (w/o permits)
11. 50' mobile home removed from north 1/2 acre to make room for 100'x50' by 21.3' high "HUGE COMMERCIAL METAL FLEET GARAGE". Twice as long, five times wider and over twice as tall as as the falsely named "HISTORIC BARN" and with illegal fill for foundation (w/o permits) neighbors continue to file complaints
12. Dirt driveway moved into wetlands setback at Bonita Dr. due to illegal "Huge Commercial Metal Fleet Garage" (w/o permits) but still goes down middle of the property to CB house
13. Numerous hazardous spills "SLOWLY" repaired and after the fact certification requested for petroleum storage (w/o permits)
14. ACPLM paving and excavating company fully and illegally moved onto the 5007 Bonita Dr. (w/o permits) neighbors continue to file complaints
15. Illegal contaminated fill spread over premises and double wide mobile office installed for business (w/o permits)

16. Rip rap foundation at CB house foundation insufficient to protect from surface water flooding so 6" concrete diverter wall 300' long constructed (w/o permits)
17. Contaminated fill installed with illegally paved access culvert to Bonita Dr. and neighbor driveway paved for free (w/o permits)
18. Illegal fence installed to stop Mr. George Loach from continuing to report these overwhelming criminal violations (10' high on Mr. Loach's side and 6' high on Mr. Bordner's side, in case you need proof)
19. Full ACPLM paving and excavation business moved to 5007 Bonita Dr. homestead parking lots paved with ACPLM waste materials illegally (w/o permits)
20. Full driveway moved into wetlands and setbacks and paved with contaminated fill covered with asphalt (w/o permits by ACPLM licensed contractor) the depth was photographed by HC staff in the record
21. Constant delays in compliance with every HC, FL and US code and rule violation and continued efforts by Mr. Cremer and Mr. Morrow and now Mr. Bordner to cover these continuing illegal and criminal violations. Shame on all three !!
22. Repeated reports by neighbors of illegal fence diverting surface water and blocking natural wildlife corridor and flooding again of destroyed gopher tortoise colony site.

Throughout all this is the introduction of HO Susan Finch who supposedly reviewed and studied all of this history and much, much, much, much more. The very best she could muster in protection of the HC taxpayers, our neighborhood and our great environment was to twice find unacceptable and in some cases contradictory reasons to attempt to get away with authorizing these and even more crimes, violations and destruction "PERMANENTLY", our neighborhood and the environment that attracts development to Florida in the first place..... HO Finch even verified in a hearing that Public Works must do in field studies with written approval and finding none approved the fence anyway. Give me a break, are we all crazy or bought and sold like development hacks and slaves ?? That's a real question folks.....

There is so much more but again I'm exhausted by this farce. Please fix this!!!

Sincerely R. B. Lavers Sr. elder disabled taxpayer, Veteran and injured property owner

Subject: Are you guilty of nonfeasance or perhaps even worse?

I had prepared this letter but not send it out thinking that you had already left Tallahassee becoming the new federal senator. As of now you're only within minutes of being sworn today in such office. Nonetheless, I am sending this letter in view of this most needed action being taken by you and your successor.

Sir, you better find time to read this entire letter because it ought to be very important for your future in politics.

You are going to the US Senate with the expressed purpose of helping President Trump drain the swamp of the corruption and serious damage from America's enemies, yet I wonder how effective can you be when you haven't done the same in your state after I called your attention to it with overwhelming and insurmountable documented evidence. Still, I'm willing to give you the benefit of the doubt because I never got an answer from you personally, but instead it was a staff member by the name of Janice T Johnson (office of Citizen Services) who responded by doing a Pontius Pilate washing of the hands. That is not the appropriate response since it is the OBLIGATION of your office to at the very least investigate such a serious complaint that as I have already said contained a very well-documented case, with all kinds of exhibits, of high-level corruption from State Protective Services all the way up to the courts/ judges, and everything else in between.

My complaint to your office calling for, at the very least, a REAL investigation into agencies, like the Department of Children and Families, and an extremely corrupt Guardianship and probate judge, was dismissed conveying that you could not do anything about it, and that I needed a lawyer. Nothing could be further from the truth, especially after I had clearly stated that you were the only official left with the power to investigate and stop the destruction of lives resulting of the abuse of power by the above cited. It simply was the case that this matter must be in your hands since the pertinent overseeing and regulatory agencies, such as the State Attorney's Office, and the Office of Inspector General, had already been contacted but these did nothing more than cover up and enable those criminals in government to continue with their spree of plunder and destruction of innocent lives. Nevertheless, I already had a lawyer, the only one I finally managed to find, who became intimidated by such high degree of corruption, and has recently committed suicide. He was a friend of my neighbor who recommended him, while the multiple dozens of others I had spoken with didn't bother since they don't care to provide for justice in the first place, and they are simply another corrupt bunch that only cares to further fatten their bank accounts at the expense of their clients.

So, how is it that, in the state you preside, DCF escapes with removing an individual from her home (my mother) without any explanation or basis for it, and then further abuses its power by denying a demanded explanation through the use of intimidation while hiding behind the police to remove from their office the person (me) questioning the rationale for their (illicit, and criminal) activities. How is it, also, that a corrupt judge assigns a guardian for this person, who was picked from her house by DCF in identical manner as the Gestapo's, in spite of all evidence including a Medical Committee report that found no problem whatsoever with this person but instead demonstrated her clear mind, while it also revealed her to sustain that DCF's claims had been fabricated, and her desire to be freed and allowed to return to her house.

Furthermore, this judge proceeded to obliterate every remaining right from my mother to completely take control of her and steal her every single possession including her house, and this was accomplished despite not having a final medical evaluation which the judge had ordered in hopes of branding my mother completely incapacitated. I realize that this real-life nightmare would have not been uncommon in the Soviet Union, Nazi Germany, or even my native Cuba; however, it is sadly occurring here in our own state because people like Janice T Johnson and / or yourself don't care to

do anything to stop these criminal activities from becoming commonplace (by now I'm certain these abuses are not isolated cases).

We are neither Democrats nor liberals but quite the complete opposite. We are not naive fools but quite simply people who believe in the rule of law or we wouldn't be living here, and much rather we would have stayed in Cuba otherwise. We were not economic migrants but genuine political refugees in search of freedom and access to essential human rights-- much like the original settlers who made this beautiful country possible.

As such we refuse to be feeble victims, and clamor for justice to be done and not be ignored. So, I ask you in the very last days of your Administration to initiate an immediate probe into our case that will stop the very aggressive criminal procedure against us, and assure it is continued by the oncoming De Santis Administration which I most certainly will also contact. The right for justice is indeed a right for all people, not just a right for a few, and we also have the right to let the rest of the world know of the incompetence, dereliction of duty, and cover-up of their elected officials and public servants.

Sincerely,

Jose Hernandez, DC

Dear Senator Scott,

Political boycotts are political speech protected by the First Amendment. That is why I urge you to oppose the Combating BDS Act of 2019. The Combating BDS Act is included S.1 and authorizes states and municipalities to pass legislation punishing supporters of boycotts against Israel. A number of states have enacted such bills. On two occasions, federal courts have blocked their enforcement on the grounds that these bills violated the First Amendment.

Congress shouldn't be sending the message to local governments that it's okay to violate the First Amendment. That's why civil liberties groups oppose this bill. I urge you to do the same.

Rick Scott,

The President's obsession with having his own way no matter who suffers is the reason our for the government shutdown.

The damage that is being inflicted to government employees is totally unnecessary. To make things even worse, you Republicans are magnifying the damage by standing on the sidelines with your backs turned to reality, insisting that the entire problem was caused by Democrats. Most of the American people, however, know the truth, and the truth is that Republicans are not doing their job protecting our country and the people they pledged to serve when they were elected. Shutting down the government comes at a steep cost to everyday Americans. Your refusal to compromise isn't governance—it's reckless obstruction at the expense of this country. Do your job. Subject: Fw: Proclamation Request Confirmation

Hello. I am writing to check on the status of the Proclamation Request which was sent to EOG Citizen Services on Friday, Dec. 21, 2018 at 5:09 p.m. (Copy is below).

In light of the transition of power from Gov. Scott to Gov. DeSantis has just taken place, Jewish Historical Society of Southwest Florida extends the request to Gov. DeSantis to attend our annual event in celebration of Jewish History with Dr. Judith and Samuel Friedland. Gov. DeSantis does know both the honorees. The event held on January 28, 2019 at the Silverspot Cinema, 9118 Strada Place, Naples begins at 3:00 p.m with a documentary film about the Friedlands, followed at 4:30 with brief speeches and presentation of Proclamation(s), followed by a cocktail hour.

I will watch for your reply regarding both the status of the proclamation and of attendance by the Governor. Thank you.

Sincerely,

Charlane King, Director of Events

Subject: [Suspected SPAM] Protect Families, End the Shutdown

Dear Senator Scott,

The government shutdown puts the health and well-being of millions of children in jeopardy: services that support children and their families are watching their remaining funds dwindle and are at-risk for expiring.

* The Department of the Treasury is unable to provide tax refunds to low-income and working class families: families are unable to pay their bills and afford child care.

* The Supplemental Nutrition Assistance Program (SNAP) is projected to run to out of funding sometime in February: families will be unable to access healthy food.

I am asking you to reach an agreement to reopen the government and ensure families can access the services promised to them.

Protect families and end the government shutdown now!

Sincerely,
Mari Mennel-Bell

Subject: Support American Science! Reopen the Government

Dear Senator Scott,

Congratulations, and welcome to the 116th Congress. I am hopeful that, as my elected official, you will continue the trend set by the 115th Congress in supporting the nation's scientific enterprise. The last Congress prioritized biomedical research by increasing support for the National Institutes of Health and funding the agency through the entirety of fiscal year 2019. Sadly, the National Science Foundation and other federal science agencies, all of which play an equally important role in supporting the American scientific enterprise, remain shut down today with no clear end in sight.

Ending the partial government shutdown is essential to ensuring that the next generation of America's science, technology, engineering and mathematics (STEM) workforce is supported and that the nation remains a leader globally in research and innovation.

I urge you to reopen the government and work in a bipartisan manner to pass a spending package for FY19 that will provide robust increases to the federal agencies that support the nation's research enterprise.

Thank you,

Sincerely,
Joseph King

Subject: Shutdown and the Wall

Dear Senator Scott:

As a Florida resident who voted for you, I'm writing to express my disgust at the impasse on funding the federal government. I see the border wall as nothing more than a monument to President Trump's lunacy since all data shows it to be of little relevance in reducing illegal immigration, stopping drug traffic, or slowing terrorists. Furthermore, I expect the new proposal to use steel slats to be a questionable deterrent, since steel is easily and quickly cut by a portable oxy acetylene torch. I can imagine a market in Mexico quickly developing to station people near the wall to cut holes as desired. Please support effective legislation to reopen the government without more money than needed to maintain wall sections that are effective in populated areas. I hope that as a rational and realistic senator, you would also support a vote to override a presidential veto of a rational funding bill.

Thank you.

Sincerely
Anthony Greszler

Subject: Endangered Species Act

Dear Senator Scott,

As a constituent, I urge you to oppose any and all attempts to weaken the Endangered Species Act or limit the scope of its protections.

We need a strong Endangered Species Act now more than ever.

In just the last 50 years, human beings have eliminated more than half the world's wildlife species, according to the World Wildlife Fund. Worse, climate change, plastic pollution, habitat loss, the illegal wildlife trade, and other factors threaten to accelerate species loss.

In fact, many scientists say that we are on the brink of a human-caused mass extinction crisis in which we could lose three quarters of the world's species. Species simply cannot evolve quickly enough to survive significant human threats.

Congress should be strengthening this important law -- not finding ways to limit its protections.

Instead, the House NaturalResourcesCommittee has advanced bills that would weaken this bedrock conservation law (HR 3608, HR 6345, HR 6346, and HR 6355) and eliminated ESA protections for gray wolves across the Lower 48 United States (HR 6748).

I strongly urge you to oppose each of these bills, along with the Trump administration's proposed changes to the US Fish and Wildlife Services work to save threatened and endangered species.

Science tells us that each species plays a vital role in its environment. We must not allow wildlife to be sacrificed in an ill-conceived rush to roll back environmental protections.

Sincerely,

Sincerely,
KelleyCharnas

Subject: [Suspected SPAM] Vote No on S.B.1

Dear Senator Scott,

I am writing to request that you protect the First Amendment and vote no on S.B.1. The proposed bill includes the call to punish those who boycott Israel for its human rights violations and illegal settlement activity. The right to boycott is a fundamental right that is protected in the U.S. Constitution. We expect members of Congress to uphold the rule of law and protect our civil rights, including the right to boycott. Through out history, boycotts have been used throughout the U.S. in pursuit of equal rights and justice. It is an outrage to see suggested legislation that will violate our constitutional freedoms that make America unique. We strongly ask you to you VOTE NO on S.B.1. and defend the First Amendment. Thank you for your time.

Sincerely,
ashley ansara

Dear Senator Scott,

Political boycotts are political speech protected by the First Amendment. That is why I urge you to oppose the Combating BDS Act of 2019. The Combating BDS Act is included S.1 and authorizes states and municipalities to pass legislation punishing supporters of boycotts against Israel. A number of states have enacted such bills. On two occasions, federal courts have blocked their enforcement on the grounds that these bills violated the First Amendment.

Congress shouldn't be sending the message to local governments that it's okay to violate the First Amendment. That's why civil liberties groups oppose this bill. I urge you to do the same.

Sincerely,
Chris Demers

Dear Ladies and Gentlemen of the Federal/State Government, Political Orgs, Media;

Once again Mass Murdering Mole Network Perpetrator President Donald Trump and House Speaker Nancy Pelosi and HouseRep PaulRyan and Senior Members ofCongress who have mass murdered all of their lives and Illegally remained at their position receiving salary while employed by Government, continues to date to use a lifelong Illegal Brain Tap-Time Clock Inclusion Feed (via Advanced EMS/Microwave Technology AKA Microwave Brainwave Alteration Device) upon my lawful good gnome person/my life. This Illegal and psychotic torturous hunt the White EuropeanChristianRace including myself lowering America's-World's Mean Life Span (including now denying the homeless/myselfCharity Food at the Miami Avenue Location since New Years 2019 and yesterday using a FoodCharity Giver at Wilkie & 6th **(Mother Pastor Husband Driving a White Car License Plate: FLA G08W15)** To PubliclyRepeatedly Inform Me andRequest Black Ops Tech Attack To My Diaphragm with Pain when we otherwise enjoyed a nice relationship. This is being perpetrated upon myself more so since August 31-1997 when the country takeover from covert turned overt and I am unable to do more than slow it down, while I am kept Illegally Amplified/Externalized Thought and other forms of Black Ops Tech Torture Lifelong Increased since August 31-1997 upon my person to my heart-lungs-kidneys increasing urination-vascular leg valves-spinal dislocation/degeneration/curvature when straight spine all of my life was diagnosed, etc. hypoglycemia and allergies. A few days ago causing a soar throat/cold while kept warm day/night with clothes, blankets and tarp and clean with hygiene products. TheCongress and House Speaker Nancy Pelosi herself has instructed me to complain so there is a record and she can removed, even New York SenatorCharles Schumer who must leave for acute psychotic mass murdering all of his life agrees with me stating, Nancy Pelosi must be removed/leave office as soon as possible. Infact, all Senior Members ofCongress (House & Senate) must leave office if in office through OCT14-2016 the day they tortured raped murdered my beloved good gnome mother Marion Haag to please Hillary & WilliamClinton and Barack Hussein Obama.

I continue to request federal/state victim witness moneys and housing of my choice and life extension healings for myself and abroad White EuropeanChristianRace Individuals (lawful non murderous/non voluntary manslaughter) with AgeReversal to 21 years of age and Excellent Health For Age 21 or younger depending on their age at the time they receive their life extension healing and a disability healing for otherwise lawful non murderous White EuropeanChristian Race persons of USA Birth who are (non murderous/non voluntary manslaughter legal category). No more Minorities should be allowed to enter the United States of America for any reason and No further Propagation of Indigenous Minorities should be allowed worldwide due to the overpopulation and destruction of the White EuropeanChristianRace as they flood our White EuropeanChristianRace Founded countries worldwide taking us over.

I am still endangered of losing my storage although, Donald Trump allowed me to receive a one time charity of \$35.00 to pay the monthly storage. Though, my website: silviastaggforpresident.wordpress.com receives constant attacks and alterations.

MyCampaign continues with myself receiving possible yes by Democratic PresidentialCandidateRichard Ojeda to be my 2020 Vice President, if no further hunt continues against himself and his family, though the threatened torturous hunt against WA Governor Jay Inslee was enough for he to change his mind, as their brain taps are not as good as President for ceasing a hunt against myself and the White EuropeanChristianRace worldwide which is what the United States Congress is searching for instead of more aggressively allowing me to rise as their Leadership is still too psychotic to allow any Life Extension Healings.

Respectfully,

Subject: Resolve to Invest in Kids in 2019

Dear Senator Scott,

Happy New Year! As you work to set your legislative priorities for 2019, I urge you to resolve to invest in kids' futures this year. Specifically, I ask that you help children:

- Live by protecting funding for life-saving care for children around the world. No child should die from preventable illnesses, like pneumonia and diarrhea.
- Learn by expanding access to early learning here at home by addressing the child care desert crisis and support robust funding for Head Start and Child Care and Development Block Grants. All kids should start kindergarten ready to learn.
- Be safe by upholding international agreements that keep children safe in war and conflict zones. All children should be kept safe from harm.

When we invest in kids, we invest in our futures.

I look forward to your response.

Sincerely,

Sincerely,
Esther Garvett

Congratulations on your election to the United States Senate.

I would like to thank you for the opportunity to serve as Seminole County's Supervisor of Elections for nearly 14 years. In my time in office, we've transformed our office into what is widely regarded as America's Finest Elections Team. We operated under our new mission statement of: Efficient Elections, Excellent Service, Fiduciary Conservatism and Voter Confidence. The term America's Finest Elections Team isn't a slogan for our two-time international award-winning office -- it's a reflection of those who serve Seminole County's democracy. Nearly 700 of our neighbors serve as pollworkers, and together with 16 full-time staff, proctor elections which continue to have the highest voter turnout in the region, at the lowest budget, with a greater than 99 percent satisfaction rating. We have won two international awards: for building voter confidence, and our high school voter registration efforts. Our website is also award-winning, and I encourage you to explore more at VoteSeminole.org. With your election to the U.S. Senate and Governor-Elect DeSantis' election as your successor, I have been asked to serve as our Secretary of State. With that appointment, this email will serve as my resignation as the Seminole County Supervisor of Elections, effective immediately. It has been an honor to serve my hometown, and I now look forward to serving my home state.

Again, congratulations on your election to the United States Senate!

Subject: inmateChristianRoque (DC#B16344)

To whom it may concern,

This email is to inform you that we have made multiple attempts to contact someone for further information and seek necessary medical assistance for inmateChristianRoque (DC#B16344) who is located atCentral Florida reception center. As you are aware, although prisoners do not have full constitutional rights, they are still indeed protected by the eighth amendment against cruel and unusual punishment. This means, inmates are entitled to basic rights protected by the US constitution which include medical care and attention as needed to treat both short-term conditions and long-term illnesses and medical care provided must be "adequate".ChristianRoque filed a request for medical attention over two weeks ago and still has not been examined, treated, nor even contacted regarding the status and/or delay of his request. He has reported that he is covered with red bumps all over his back and chest which could be a sign of a bacterial infection or a severe allergy that needs to be treated to avoid further complications. Something as small as an unattended wound, picked scab, or even a pimple can allow bacteria into your blood, cause a major infection, and lead to death if left untreated. He is in need of urgent medical attention and it appears that your correctional facility have negate to assist him accordingly and in turn have violated his rights.

I understand he broke the law for which he is already paying for with his freedom, however his basic human rights for medical care cannot be violated or dismissed because of his incarceration. He is not a caged animal, he is a human being who needs medical care.

I am well informed that when a jail or prison accepts custody of an inmate or pretrial detainee, certain constitutional standards apply. These standards include the obligation to provide medical care in response to a known serious condition. when a jail or prison is knowledgeable of an inmate's needs but purposefully disregards a serious medical condition, resulting in the death of an inmate or pretrial detainee, the jail or prison (or its officers) can be liable for wrongful death. Such medical negligence includes the denial of prescription medications, the failure to respond to symptoms indicating potentially fatal heart conditions or other medical conditions, the refusal to treat serious infections, and/or the denial of medical care leading to wrongful death.

IfChristianRoque does not receive immediate proper treatment and medical care, I will contact my lawyer for resolution. I will not allow my brother's life to be put at risk because the jail is refusing to medically care for him or overlooking his current health issue/risk.

If you need absolutely any further information regarding this matter, or can forward me to the appropriate contact person that can assist me with this matter, please feel free to contact me directly at any time. Cell phone 305-934-9826

Honorable Public Officials:

This is Notice, Public Notice, and Commercial Notice and a request for public records, business records, public documents, and public information pursuant to FLA.STAT.119.01(1) and Article 1: Section 24.(a): under the constitution of the State of Florida. I seek the preservation of the Video Camera Footage of Santa Rosa Correctional Institution-Main Unit and the Annex of the transfer and receiving area for December 12, 2018.

This Video Camera Footage will definitely prove that Mr. Stontravez Nash #722799 was illegally, unlawfully, unconstitutionally harrassed and was robbed of his religious chain and medallion and was threatened by numerous and various Correctional Officers, employees, and personnel on December 12, 2018.

In past times, my request for Public Records has not been honored which the laws of the state of Florida so requires this Notice is proof and evidence that this Request for Public Records has been made.

Please help me.

With sincere thanks,
Stontravez Nash
c/o Elvera Baker

Date: Monday, January 7, 2019 9:20:15 PM

Dear Senator Scott,

Please vote NO on S.1, "Strengthening America's Security in the Middle East Act of 2019." In reality, this fraudulently titled bill hurts U.S. security, funds Israeli violations of human rights, and violates Americans' rights to boycott. I am outraged that it is even being considered. How can Israel convince US Congress people to cast a vote that snubs our freedom of speech? The Dems are concerned about Russia's influence???? How would you characterize Israel's influence on our nation's elected representatives? It's outrageous! I voted for you and I implore you now to STOP voting in favor of Israel--a foreign country!

Sincerely,
John Moore

Subject: Vote No on S.B.1
Date: Monday, January 7, 2019 6:27:52 PM

Dear Senator Scott,

I am writing to request that you protect the First Amendment and vote no on S.B.1. The proposed bill includes the call to punish those who boycott Israel for its human rights violations and illegal settlement activity. The right to boycott is a fundamental right that is protected in the U.S. Constitution. We expect members of Congress to uphold the rule of law and protect our civil rights, including the right to boycott. Through out history, boycotts have been used throughout the U.S. in pursuit of equal rights and justice. It is an outrage to see suggested legislation that will violate our constitutional freedoms that make America unique. We strongly ask you to you VOTE NO on S.B.1. and defend the First Amendment. Thank you for your time.

Subject: [Suspected SPAM] Oppose the Nomination of William Barr for Attorney General
Date: Monday, January 7, 2019 1:30:10 PM

Dear Senator Scott,

Dear Senator,

Based on William Barr's radical anti-whistleblower positions, as explained in the press release issued by the National Whistleblower Center (see below), I call upon you to urge the White House to immediately withdraw his nomination.

Thank you for your time and consideration.

Sincerely,
The Undersigned

Press Release:

Attorney General Nominee Strongly Opposed to Whistleblowers
William Barr called False Claims Act an "abomination"

December 11, 2018. Washington, DC. In a public transcript given as part of the Presidential Oral History of the George H.W. Bush Presidency, President Trump's nominee for Attorney General, William Barr, ferociously attacked America's most successful whistleblower law, the False Claims Act. Barr stated, on the record, that he "wanted to attack" the False Claims Act, and specifically called the law's highly successful qui tam whistleblower provision "an abomination." In a transcript of his April 5, 2001 interview with the Bush presidency's oral history project, the content of which Barr personally approved, Barr stated:

"Yes, there were significant disagreements sometimes between the SG's [Solicitor General] office and my office on a position. One of the big ones was the qui tam statute, which is basically a bounty hunter statute that lets private citizens sue in the name of the United States and get a bounty. I felt then, and feel now, that is an abomination and a violation of the appointments clause under the due powers of the President as well as the standing issue of the Supreme Court. So I wanted to attack the qui tam statute, and the SG's office wanted to defend it. That was a big dispute."

Upon learning this information, Stephen M. Kohn, Executive Director of the National Whistleblower Center, released the following statement:

"Mr. Barr's comments demonstrate a deep rooted contempt for whistleblowers. His radical anti-whistleblower statements are disqualifying for any nominee for the position of U.S. Attorney General.

"The National Whistleblower Center is a non-partisan organization and does not take positions on Presidential nominations. However, given the extreme animus and hostility exhibited by this nominee, the NWC is compelled to make an exception to this rule. Based on his comments William Barr should not be confirmed.

From: Kathleen Williams
To: Governor Rick Scott
Subject: [Suspected SPAM] Oppose S. 785, the "Alaska Native Veterans Land Allotment Equity Act."
Date: Monday, January 7, 2019 2:20:38 PM

Dear Senator Scott,

I'm writing to express my concern and opposition to S. 785 and I ask that you oppose any bill in the current "lame duck" session of Congress that contains S. 785, the "Alaska Native Veterans Land Allotment Equity Act."

S. 785 would reopen and substantially expand the allotment program without many of the safeguards provided in the past.

S. 785 would create thousands of private inholdings on America's public lands in Alaska, totaling up to 500,000 acres, which could include lands within national wildlife refuges and even congressionally designated Wilderness areas. Also, unlike the earlier native veteran allotment program, S. 785 would remain open in perpetuity and allow heirs of veterans to participate. This would amount to nothing less than a perpetual raid on America's public lands.

Of particular concern to me is the fact that S. 785 makes ALL national wildlife refuge lands (except the Arctic National Wildlife Refuge) including designated wilderness lands, available for privatization.

These ecologically sensitive lands are afforded the most protected status available under the Alaska National Interest Lands Conservation Act, and should be the last areas offered for privatization. This is especially true where, as here, there is no required showing of any prior use or actual connection to the land to be privatized.

S. 785 lacks the protection of past allotment programs that gave the Secretary of the Interior flexibility to make alternative conveyances when the public interest would be negatively impacted by the removal of lands from Conservation System Units.

Coupled with the expedited and arbitrary timeline for approval, and the lack of a deadline for making selections, I'm seriously concerned with the public land and Wilderness implications within this bill.

I urge you to oppose S. 785, the "Alaska Native Veterans Land Allotment Equity Act" and any other bill that might include S. 785.

Thank you.

Sincerely,
Kathleen Williams

To: Governor Rick Scott
Subject: [Suspected SPAM] Please Oppose Harmful Riders and Support Bird Conservation Funding
Date: Monday, January 7, 2019 1:23:47 PM

Dear Senator Scott,

Dear [Representative/Senator],

Please oppose proposed harmful policy riders and border wall funding. Anti-environment measures would erode the Endangered Species Act (ESA) -- one of our nation's most successful conservation laws -- and undermine the recovery of U.S. bird species listed under the Act.

I am particularly concerned about the decline of one-third of all U.S. migratory bird species, the increasing threats to Greater Sage-Grouse, and the fate of critically endangered birds in Hawai'i -- known as the "bird extinction capital of the world." Border wall construction threatens important bird habitat in the Rio Grande Valley, which also serves as a popular birdwatching hot-spot.

I ask that you please prioritize the following areas critical to conserving America's birds during the FY 2019 appropriations process:

- * Increase the Neotropical Migratory Bird Conservation Act to \$6.5 million.
- * Increase Migratory Bird Joint Ventures to \$19.9 million.
- * Increase State of the Birds funding for critically endangered Hawaiian birds to \$5 million.
- * Support endangered species recovery and Greater Sage-Grouse conservation.
- * Oppose harmful policy changes that would undermine the Endangered Species Act and other critical environmental laws.

The proposed FY 2019 federal budget would drastically diminish protections for birds and their habitats, especially on public lands that belong to all Americans. Please reverse these proposed cuts and preserve our natural legacy for future generations.

Sincerely,

“His hostility towards whistleblowers and his ignorance as to the effectiveness of the False Claims Act is especially shocking for a person who held the position of U.S. Attorney General.

“The legal position he advocated was unanimously repudiated by the U.S. Supreme Court in a decision written by former Justice Antonin Scalia.

“In 1863 President Abraham Lincoln signed the original whistleblower provisions of the False Claims Act into law. President Lincoln understood that the United States is ruled by a government ‘of the people, by the people and for the people.’ Mr. Barr is not fit to be the Attorney General.”

Thank you for your time and consideration.

Subject: [Suspected SPAM] Support FAIR fees provision for air travelers
Date: Monday, January 7, 2019 4:41:15 PM

Dear Senator Scott,

As your constituent, I urge you to protect the bipartisan FAIR Fees provision as it was included in the Senate's Federal Aviation Administration Reauthorization Act of 2017. Do not agree to, or support, any version of the bill that DOES NOT include the FAIR Fees provision!

The airlines have pulled a bait-and-switch on passengers--while base fares may seem reasonable or even low, the additional fees add up fast.

I support the FAIR fees provision because it will help protect consumers from unreasonable fees by assessing whether change and cancellation, baggage, and other fees are reasonable and proportional to the costs of the services provided and ensuring change and cancellation fees are not unreasonable or disproportionate to the costs of the serviced provided.

Without the FAIR Fees provision, airlines can just keep on gouging us.

Thank you for listening to me!

Date: Monday, January 7, 2019 8:37:56 PM

Dear Senator Scott,

Time is short. Please support S. 1, which includes the Caesar Syria Civilian Protection Act. The Caesar Act sanctions the Assad regime and its backers to hinder their ability to commit gross human rights abuses in Syria. The bill has passed the House twice with as many as 108 bipartisan cosponsors, and will be before both the House and Senate this week in response to the precipitously announced U.S. withdrawal.

These sanctions are urgently needed as diplomatic leverage to end Syria's conflict -- a conflict that has killed more than 560,000 people including 50,000 children. Syria will never be stable so long as war criminals are allowed to act with impunity.

Date: Monday, January 7, 2019 9:08:57 PM

Hi,

Just wanted to give you guys a heads up.
If you are in the market for working capital
we can help. We are a source of funding for
businesses and practices like yours and we
just thought we should reach out to you.

Below are some of the features and advantages
of our cash advance package:

The Funding is Unsecured/No Collateral Required.
24 hrs for approval, less than 7 Days for funding.
One Page Application.
All Qualified Applicants Get Approved
Ability to Refinance Existing Advances
Bad Credit OK / No FICO Minimum;
Approval based on revenue.
Funding Amounts Up To \$1,000,000
Affordable and flexible repayment plans.

Here is what you would need to qualify:

1. You need to have been in business at least 3 months.
2. Your business can not currently be in bankruptcy.
3. Your business must deposit at least \$8,000 per month
in the bank or do \$2000 per month in credit card transactions.
4. Your business can not be behind more than 45 days on rent
or mortgage.

If you meet these qualifications, we can get you funded.
And it will only take a few days. We can fund up to \$2,000,000.
Terms improve dramatically after first successful round of funding.

If you are interested, I'd love to hear from you.

thanks,

Luther Hector

Subject: inmate Christian Roque (DC#B16344)
Date: Monday, January 7, 2019 5:19:15 PM

To whom it may concern,

This email is to inform you that we have made multiple attempts to contact someone for further information and seek necessary medical assistance for inmate Christian Roque (DC#B16344) who is located at Central Florida reception center.

As you are aware, although prisoners do not have full constitutional rights, they are still indeed protected by the eighth amendment against cruel and unusual punishment. This means, inmates are entitled to basic rights protected by the US constitution which include medical care and attention as needed to treat both short-term conditions and long-term illnesses and medical care provided must be "adequate". Christian Roque filed a request for medical attention over two weeks ago and still has not been examined, treated, nor even contacted regarding the status and/or delay of his request. He has reported that he is covered with red bumps all over his back and chest which could be a sign of a bacterial infection or a severe allergy that needs to be treated to avoid further complications. Something as small as an unattended wound, picked scab, or even a pimple can allow bacteria into your blood, cause a major infection, and lead to death if left untreated. He is in need of urgent medical attention and it appears that your correctional facility have negate to assist him accordingly and in turn have violated his rights.

I understand he broke the law for which he is already paying for with his freedom, however his basic human rights for medical care cannot be violated or dismissed because of his incarceration. He is not a caged animal, he is a human being who needs medical care.

I am well informed that when a jail or prison accepts custody of an inmate or pretrial detainee, certain constitutional standards apply. These standards include the obligation to provide medical care in response to a known serious condition. when a jail or prison is knowledgeable of an inmate's needs but purposefully disregards a serious medical condition, resulting in the death of an inmate or pretrial detainee, the jail or prison (or its officers) can be liable for wrongful death. Such medical negligence includes the denial of prescription medications, the failure to respond to symptoms indicating potentially fatal heart conditions or other medical conditions, the refusal to treat serious infections, and/or the denial of medical care leading to wrongful death.

If Christian Roque does not receive immediate proper treatment and medical care, I will contact my lawyer for resolution. I will not allow my brother's life to be put at risk because the jail is refusing to medically care for him or overlooking his current health issue/risk.

If you need absolutely any further information regarding this matter, or can forward me to the appropriate contact person that can assist me with this matter, please feel free to contact me directly at any time. Cell phone 305-934-9826

Thank you
Kind Regards,
Jennifer Roque

General Manager

Heavenly Touch Home Health Care Corp.

Honest hard work- this is something God seeks from all of us. God's words tell us that working hard, but with faith in mind, can lead to the great things he has planned for us.

Colossians 3:23 Whatever you do, work at it with all your heart, as working for the Lord, not for human masters, If you want to lift yourself up, lift up someone else.

"Praise be to the God and Father of our Lord Jesus Christ! In his great mercy he has given us new birth into a living hope through the resurrection of Jesus Christ from the dead." 1 Peter 1:3

Subject: Sunshine 811 Progress Report and City/County Participation Report 2017-18
Date: Friday, January 4, 2019 5:54:49 PM
Attachments: [201718_annualrpt.pdf](#)

The Honorable, Governor Rick Scott
State of Florida
The Capitol
400 S. Monroe St.
Tallahassee, FL 32399-1100

Pursuant to s. 556.103(4) and (5), Florida Statutes, Sunshine 811 is required to file with the Governor an annual progress report on the operation of the system in administering the "Underground Facility Damage Prevention and Safety Act," Chapter 556, F.S. It is also required to submit to the President of the Senate, the Speaker of the House of Representatives, and the Governor an annual progress report on the participation by municipalities and counties in the one-call notification system created by the Act.

Both reports for fiscal year 2017-18 are herewith filed electronically with your office as attached. You may also access the report at: <http://www.sunshine811.com/annual-report/>.

Sunshine 811 is the not-for-profit corporation created by the State of Florida in 1993 to administer Chapter 556, F.S. This law was enacted to protect Florida's underground facility infrastructure (electric, gas, communications, water and sewer lines). Sunshine 811 provides a toll-free number (811) for anyone to call two full business days before excavating (ten full business days if underwater) so underground facilities in the proposed excavation area can be located and marked with paint, stakes, flags (or buoys).

If you require any further information, please contact me by phone at (386) 575-2001 or email at mark.sweet@sunshine811.com.

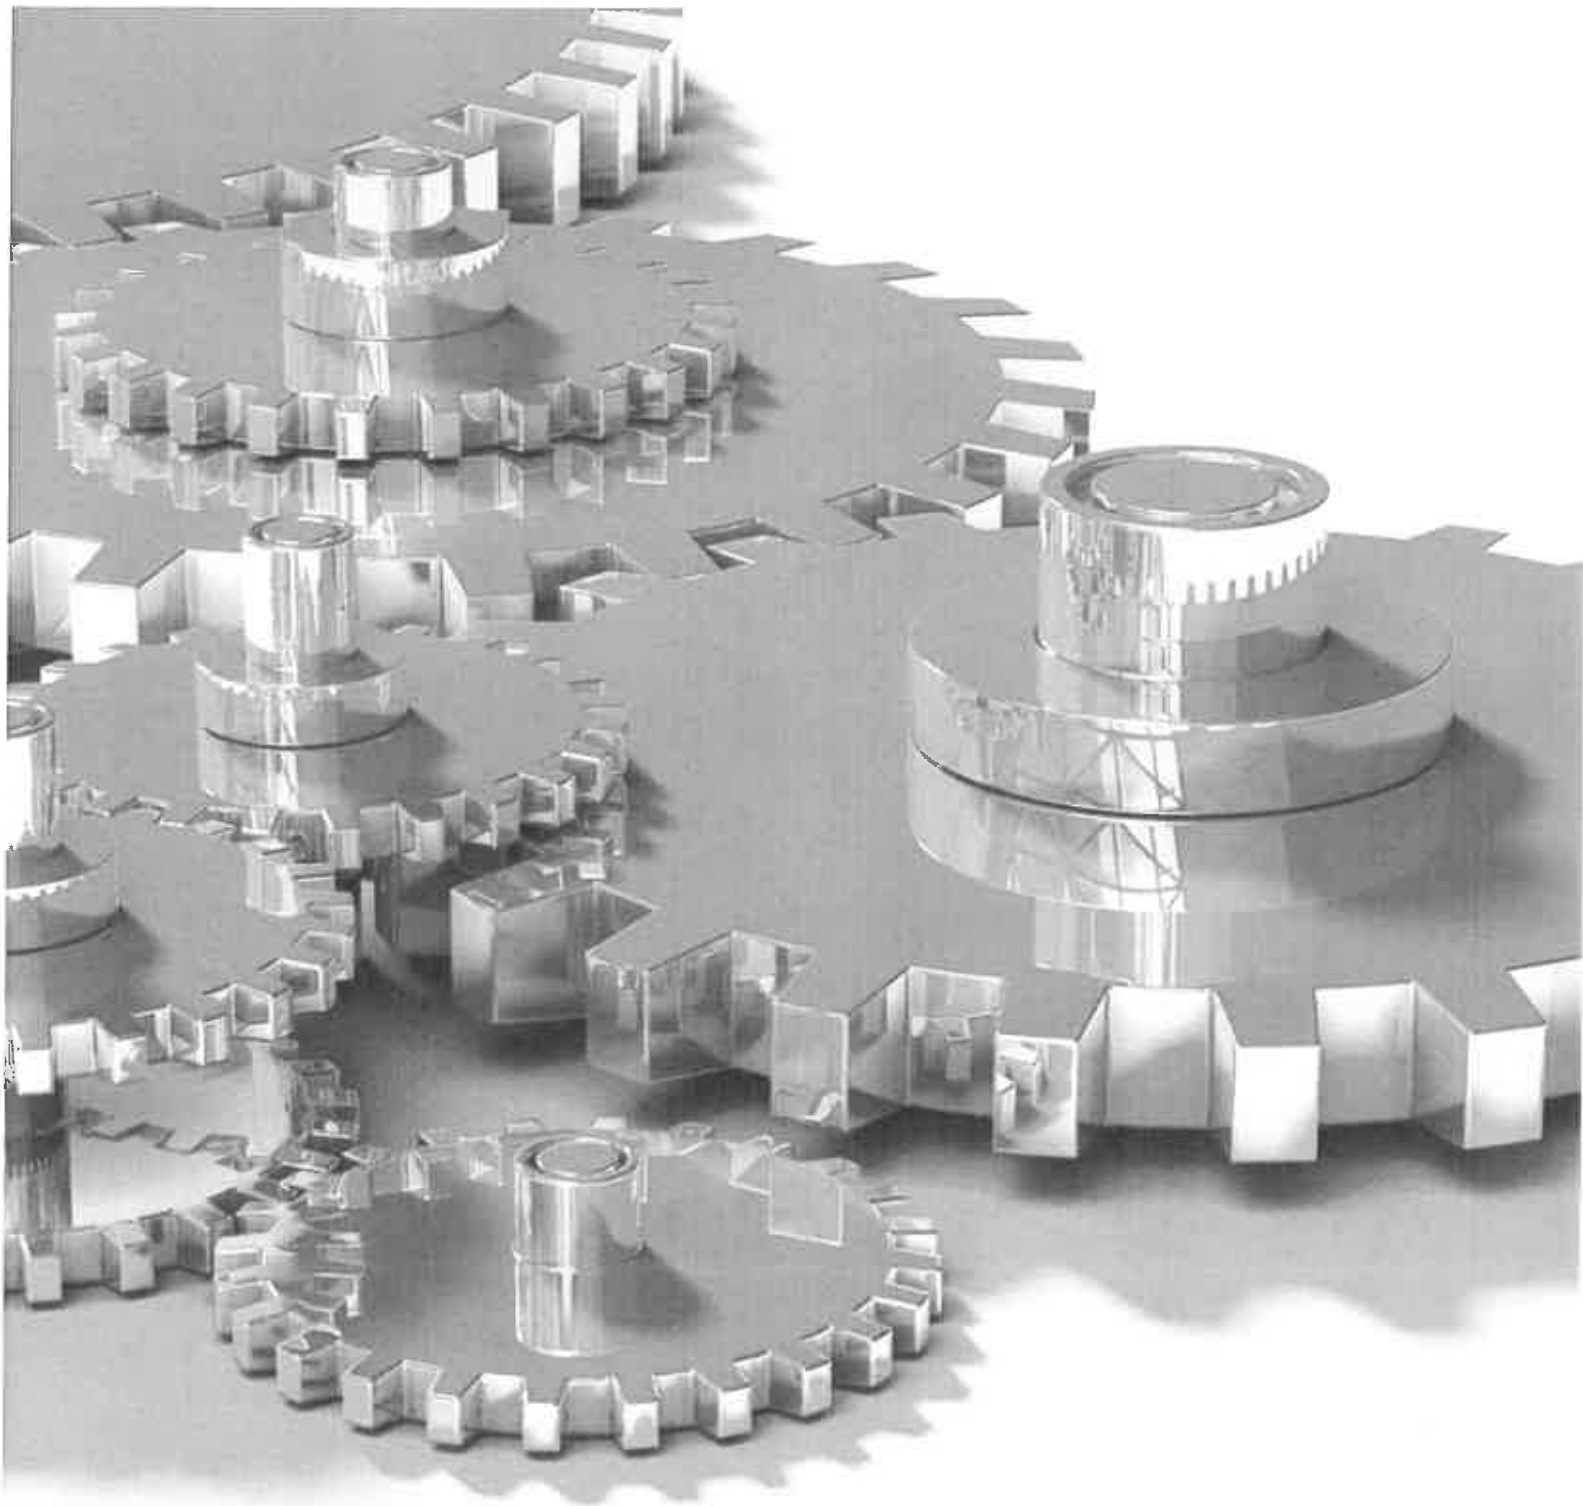

Sincerely,
Mark Sweet
Executive Director

SUNSHINE 811 2017-18 ANNUAL REPORT

MISSION

The mission of Sunshine 811 is to promote and facilitate excavation safety and underground facility damage prevention.

VISION

Florida, the safest place to dig.

10	Mandatory Damage Reporting
12	Board of Directors
13	Financial Governance Letter
15	Financial Statements and Independent Auditor's Report for Years Ended May 31, 2018 and 2017

Dear Members & Stakeholders,

On behalf of the Board of Directors and employees of Sunshine 811, I am very pleased to present this Annual Report for 2017-18.

At Sunshine 811, our work is driven by a shared dedication to preventing excavation damage to Florida's critical underground facility infrastructure and more importantly, preventing harm or injury to the people working and living nearby.

Over the past year, we faced many challenges and responded with creative solutions for our utility members and excavating stakeholders.

Please join me now in reviewing some of the major milestones that Sunshine 811 has achieved in our continual effort to make *Florida - the safest place to dig*.

Strong Financial Position

Sunshine 811 remains in a strong financial position at the fiscal year-end with total assets of \$9.2 million and net unrestricted assets of \$8.7 million. The Independent Auditor's Report to the Board of Directors stated our financial position was accurately reported throughout the year in conformity with accounting principles generally accepted in the U.S., and there were no reportable conditions with regard to the adequacy of Sunshine 811's system of internal controls.

Proposed Legislation Drafted to Amend Chapter 556, Florida Statutes

Several industry stakeholders including the Florida Natural Gas Association, TECO Peoples Gas, AT&T, Florida Internet and Television, the National Utility Contractors Association of Florida, and the Florida Energy Pipeline Association, joined with Sunshine 811's Board of Directors in May in asking the Legislature to conduct a study of Florida's damage prevention law enforcement program with recommendations for future legislation as appropriate.

2017-18

\$7.8 million
Revenues

\$7.7 million
Expenses

1.7 million
Tickets

11.3 million
Transmissions

73%
ITE Tickets

The Sunshine 811 Legislative Ad-Hoc Committee also held several meetings to develop a proposed enforcement framework that includes a nine-member review panel. The panel will review non-compliance reports, conduct hearings and make recommendations for training and education and/or payment of civil penalties from \$1,000 to \$50,000 for violations of certain provisions of Chapter 556 that were determined by the panel to have occurred.

Also included in the proposed legislation approved by the Board of Directors November 16, 2018, is an increase in the 811 excavation notification and member response requirement from two to three full business days; and a definition and protection for permanent underground utility markers.

I offer a special thank you to Legislative Ad-Hoc Committee members, the public, our Board of Directors, General Counsel, Legislative Counsel, and staff who worked diligently in gathering comment from concerned stakeholders and drafting the proposed legislation to improve and strengthen Florida's damage prevention law.

First High-Priority Subsurface Installation Incident Hearing

This year, Sunshine 811 received the first High-Priority Subsurface Installation Incident Report for a January 8, 2018, incident in Stuart, FL, in which an excavator - working without prior notification to 811 - ruptured a six-inch, high-pressure, gas line. The incident resulted in the evacuation of a nearby school, loss of utility service to commercial and residential customers, and costly restoration for the pipeline operator.

The procedures set forth in Chapter 556.116, F.S., were followed and an Administrative Hearing was held by the Florida Division of Administrative Hearings (DOAH), March 14, 2018. The Final Order was issued May 15, 2018, imposing a \$15,000 civil penalty on the excavator for violating Section 556.107(1) (a) and causing the incident. The fine was payable to Sunshine 811 and the \$10, 937.62 remaining after reimbursement of DOAH's expenses will be used for damage prevention education.

Extended Hours - Hurricane Michael Restoration Efforts

When a hurricane strikes the State of Florida, our Call Center and Member Services Departments remain open during regular business hours on weekends to assist our members with their service restoration activities by taking emergency tickets and processing extraordinary circumstance declarations. In the aftermath of Hurricane Michael, Sunshine 811 extended its regular business hours for three weekends: October 13-14, 20-21, and 27-28.

New Technology

Our technology focus was on addressing the everyday challenges our members and excavators face while looking at new solutions to give them increased ticket accuracy and a better end-user experience. After extensive research and review, our Board of Directors made the decision to participate jointly with two other high performing 811 notification centers: Dig Safely New York and Arizona 811 in developing the new Exactix 811 ticket management system from 4iQ Solutions, Inc.

The new system will use the most up-to-date mapping and computing technologies to create accurate dig site locations and member service area registrations. It also offers mobile friendly features and application program interface functionality.

Our call center and technical operations teams are working collaboratively with the other two centers and the software developer to thoroughly test new software releases to identify and resolve any technical issues that arise and make recommendations on system features. The new internet component promises an easy-to-learn platform with equally easy training for our ITE users. We anticipate roll out of the new system in early 2020 with training and onboarding beginning a few months before then to ensure a smooth transition.

In December, our technical operations team coordinated the flawless installation of a new phone system in the center with no interruptions in service to our 811 callers.

Our member services team has made sure that all of our members are aware of our operations goal to end fax transmissions of locate tickets after December 31st. We proactively encourage all of our members to use the irthNet member ticket management system - available free of charge - to receive all of their locate tickets from Sunshine 811. Our Member Services Department reports that member conversions to irthNet have gone very well. Some have even commented that they wish they had converted earlier. It's always satisfying when we can provide our members with effective solutions to help them protect their underground facilities.

Technical Key Performance Indicators:

Systems remained operational 99.7% for the entire year

73% average Internet Ticket Entry (ITE) volume (out of 1.7 million tickets and 11.3 million transmissions)

22-second average answer speed

Damage Prevention Education & Awareness

Communications was at the forefront of our education and awareness efforts this year. We spent a great deal of time doing behind-the-scenes prep work so we could hit the ground running with new initiatives planned for 2019.

Of course, face-to-face interactions are the cornerstone to building lasting relationships with our stakeholders, and that's what our damage prevention liaisons do best. Over 17,000 people attended their presentations, safety forums and meetings throughout Florida this year.

Last year we began a three-letter email campaign for first time callers, with each letter sent at key times within the 811 process. The primary purpose was to get homeowners to check the Positive Response System. Later, we rolled out a similar campaign for professional excavators with the addition of low impact marking requirements.

By implementing these programs, we saw significant increases in visits to our Positive Response System. For instance, total page visits to the homeowner positive response page increased 17% to 211,145, a 27% increase in unique visitors. We also saw visits to our homeowner webpage top out at almost 40,000, an increase of 28%.

Professional excavators checking positive response increased to 660,702 (3%), with 13% of traffic from unique visitors. As a side note, excavators using a tablet to check positive response increased the most at 25,459, a 767% increase!

Safe Digging Month and 811-Day were our big awareness campaigns. We ran radio, digital, outdoor billboard, banner ads, and other targeted advertising delivering results that exceeded the previous fiscal year numbers. The results are captured to the right.

Looking Ahead

Florida now ranks as the third most populous state in the nation at 21.3 million residents with more new residents arriving daily. As our population and economy continues to grow, new construction and excavation work is occurring nearly everywhere. Now more than ever, it is important for all Floridians to *always call 811 before digging* to avoid damaging underground facilities.

For several years our damage prevention team has conducted first time caller surveys to determine how our callers learned about calling 811 before digging. The survey results consistently show that “talking to friends, family members and neighbors,” was the top way callers learned about 811. Therefore, I encourage everyone reading this report to take this simple lesson to heart and share our 811 damage prevention and safety message with your family, your friends and your neighbors.

I want to gratefully acknowledge and thank our employees for everything that they do each day at Sunshine 811 to help build a safer Florida for all of us. We have a tremendously dedicated team of talented people at Sunshine 811.

In closing, I am excited about the changes that we are making to our systems and procedures. I’m confident in our ability to continue delivering outstanding damage prevention services to our utility member organizations, professional excavators and homeowners in our great state of Florida.

2018 City & County Report

Membership

The Florida League of Cities represents more than 400 cities, towns and villages in the State. A total of 322 municipalities (or entities thereof) are actively participating as members of Sunshine 811. Active participation in the system is established when an underground facility operator has completed all membership application requirements, develops and registers a service area representing the geographical area of its underground facilities, and is capable of receiving notices of intended excavation from Sunshine 811.

New Municipalities

One municipality joined Sunshine 811 during 2018 year-to-date. The new municipal member and the date it began actively participating in Sunshine 811 is listed below.

- City of Bowling Green 1/11/2018

New Counties

There are 67 counties in Florida. The total number of counties that are active members is 43.

- No new counties became active members nor submitted a membership application.

Path Forward

Sunshine 811 will continue to exercise its best efforts to increase awareness of the mandatory membership requirements of Chapter 556, F.S. We will assist any underground facility operators that elect to fully participate in the system with the timely processing of their membership applications and the registration of their service areas.

For our active members, we will continue to invest in and implement the best damage prevention technology available in the industry and deliver the highest quality damage prevention programs and services at the lowest possible cost.

Mandatory Damage Reporting

This year was the first year Sunshine 811 received data under the mandatory damage reporting requirement in the Underground Facility Damage Prevention and Safety Act, Chapter 556, F.S.

As a result, we saw a significant increase in the number of reports. In total, 10,437 incidents were reported to the Florida Damage Information Reporting Tool (DIRT). Florida DIRT is a personalized version of the Common Ground Alliance's National DIRT.

The top six damaging counties were Broward with 1,747 damages; Duval with 1,014; Dade, 977; Orange, 957; Palm Beach, 861; and St. Johns, 514.

Telecommunications was the facility operation most affected by these incidents with a total of 8,589. The top three root causes were consistently no ticket (2,388); insufficient excavation practices (1,515); and unknown (2,848).

Further, of the telecoms affected, 4,844 were distribution and 3,743 were service drops.

Gas came in at number two with 1,274 damages, 1,272 of those being distribution lines. The top three root causes were no ticket (626); insufficient excavation practices (320); and notification to center not sufficient (90).

A breakdown of these numbers appears on page 11.

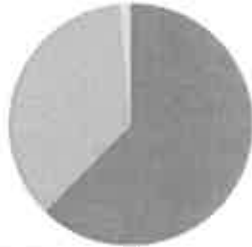

Worth noting, Florida also saw another 11,439 incidents reported through national DIRT bringing the total damages reported to just shy of 22,000. Those 11,000-plus incidents reported by Florida stakeholders are not included in Sunshine 811's data because these stakeholders did not share their data with us. When data is not shared, we don't have access to county information necessary to plan education and awareness activities by county.

Damage reporting and sharing that data will continue to be a priority this next fiscal year. We have a web page set up to walk you through everything needed to get started; sunshine811.com/florida-dirt.

Florida DIRT Data

Damages by Facility Affected

- 6,499 - Distribution
- 3,781 - Service/Drop
- 145 - Unknown/Other

To those charged with governance of

Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811

We have audited the financial statements of Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811 for the year ended May 31, 2018 and have issued our report thereon dated July 13, 2018. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2017. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811 are described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended May 31, 2018. We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of contributions is based on conditional and unconditional promises to give and receipts. We evaluated the key factors and assumptions used to develop contributions in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

Note B and Note F

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 13, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of those charged with governance of Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811 and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors

Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811

We have audited the accompanying statements of financial position of Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811 (the "Organization") as of May 31, 2018 and 2017, the related statements of activities, and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Sunshine State One-Call of Florida, Inc.

d/b/a Sunshine 811

Notes to Financial Statements May 31, 2018 and 2017

Note A – Organization and Description of Business

The Organization was incorporated on February 1, 1993. The purpose of the Organization is to serve as a central contact point for owners of underground utilities and excavators. The Organization acts as an information conduit, enabling its members to take appropriate action to protect their underground facilities from damage as well as to protect their customers from service interruption and promote a safer environment for excavators. The Organization is funded primarily through member fees.

Note B – Significant Accounting Policies

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Basis of Presentation

In accordance with authoritative guidance, the Organization is required to report information regarding its financial position and activities according to three net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets – Net assets representing resources generated from operation that are not subject to donor imposed stipulations.

Temporarily Restricted Net Assets – Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Organization and/or the passage of time.

Permanently Restricted Net Assets – Net assets subject to donor-imposed stipulations that must be maintained permanently by the Organization. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for general or specific purposes.

Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update, *Revenue from Contracts with Customers*. The effective date for this Standard for nonpublic entities is annual reporting periods beginning after December 15, 2018, with early adoption permitted for annual periods beginning after December 15, 2016. ASU 2014-09 outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This new revenue recognition model provides a five-step analysis in determining when and how revenue is recognized. The new model will require revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. The Company is currently assessing the impact that adopting this new accounting guidance will have on its financial statements and footnote disclosures.

Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811

Notes to Financial Statements May 31, 2018 and 2017

Note B – Significant Accounting Policies (continued)

In February 2016, the FASB issued Accounting Standards Update, *Leases* (Topic 842), intended to improve financial reporting about leasing transactions. The ASU affects all companies and other organizations that lease assets such as real estate, airplanes, and manufacturing equipment. Under the new guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current Generally Accepted Accounting Principles (GAAP), the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP—which requires only capital leases to be recognized on the balance sheet—the new ASU will require both types of leases to be recognized on the balance sheet. The ASU on leases will take effect for all non-public companies for fiscal years beginning after December 15, 2019.

On August 18, 2016, the FASB released ASU 2016-14, Presentation of Financial Statements of Not-for-Profit Entities, with the goal of improving not-for-profit entity (NFP) financial statements to provide more useful information to donors, grantors, creditors, and other financial statement users. The ASU significantly changes how NFPs present net assets on the face of the financial statements, as well as requires additional disclosures for expenses by nature and function and for the liquidity and availability of resources. The ASU will take effect for all fiscal years beginning after December 15, 2018.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase.

Accounts Receivable

Receivables consist of monthly billings to clients for services. The Organization performs periodic evaluations of the collectability of its receivables and does not require collateral on its accounts receivable. Losses on uncollectible receivables are provided for in the financial statements based on management's expectations. As of May 31, 2018 and 2017, the Organization recorded an allowance for doubtful accounts of approximately \$25,000. Actual write-offs may exceed the allowance.

Advertising

The Company expenses advertising costs as incurred. Advertising and promotion expense for the years ended May 31, 2018 and 2017 was approximately \$514,000 and \$529,000, respectively.

Investments

Investments, if any, are carried at fair market value. Certificates of deposit with an original maturity of greater than three months are considered investments and are carried at amortized cost. Changes in market value are recorded as investment income.

Property and Equipment

Property and equipment are recorded at cost purchased or fair value at date of gift, if contributed. Maintenance and repairs are charged to expense as incurred. When items of property and equipment are sold or otherwise disposed of, the asset and related accumulated depreciation are eliminated, and any gain or loss is included in operations. Depreciation expense is calculated using the straight-line method over the estimated useful lives of the respective assets, which range from 3 to 40 years.

Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811

Notes to Financial Statements May 31, 2018 and 2017

Note B – Significant Accounting Policies (continued)

Fair Value Measurement

The Organization categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement. Assets and liabilities valued at fair value are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

The Organization adopted the fair value option for financial assets and liabilities on January 1, 2008. This allows entities the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on an instrument-by-instrument basis. The Organization has not elected to measure any existing financial instruments, other than investments, at fair value, as permitted under the guidance. However, the Organization may elect to measure newly acquired financial instruments at fair value in the future.

Revenue Recognition

The Organization bills members on an assessment based billing system. All members who have more than twelve months of billing history, and more than ten tickets per month are assessed a percentage of the Organization's annual budget based on their pro rata share of the prior year's ticket volume. Revenue is recognized when fees are declared and invoiced.

Member dues and grants from governmental agencies are recognized as revenue when the dues or grants are received. All dues and grants are considered to be available for unrestricted use unless specifically restricted by the donor.

Deferred Revenue

Deferred revenue is recorded when the Company receives membership payments in at the start of the of the membership term. Revenue is recognized ratably over the term of the membership.

Sunshine State One-Call of Florida, Inc.

d/b/a Sunshine 811

Notes to Financial Statements

May 31, 2018 and 2017

Note B – Significant Accounting Policies (continued)

Income Taxes

The Organization qualifies as a tax-exempt organization under Section 501(c)(4) of the Internal Revenue Code (IRC). The Organization periodically assesses whether it has incurred income tax expense or related interest or penalties in accordance with accounting for uncertain tax positions. No such amounts were recognized for the years ending May 31, 2018 and 2017, respectively. The Organization incurred income tax expense in the amount of \$14,583 and \$14,350 for the years ended May 31, 2018 and 2017 for federal income taxes, as a result of lobbying expense paid by the Organization.

The Organization follows the income tax standard for uncertain tax positions. The Organization has evaluated their tax positions and determined they have no uncertain tax positions as of May 31, 2018. Should the Organization's tax-exempt status be challenged in the future, the Organization's 2016, 2017, and 2018 tax years are open for examination by the IRS.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and net assets and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, gains and other support and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Note C – Investments

The Organization's investments as of May 31, 2018 and 2017 consist primarily of CDs and mutual funds and are recorded at fair value. Investments are recorded at Level 1 within the fair value hierarchy; see Note B for fair value measurement disclosure.

The fair value of the Organization's investments consists of the following as of May 31:

	2018 Market Value	2017 Market Value
Certificate of deposits	\$ 250,000	\$ 250,000
Investment accounts	3,035,885	2,514,297
	<u>\$ 3,285,885</u>	<u>\$ 2,764,297</u>

Investment gains (losses) on the above investments for the years ended May 31, 2018 and 2017 were approximately \$21,600 and \$12,000, respectively.

Sunshine State One-Call of Florida, Inc.

d/b/a Sunshine 811

Notes to Financial Statements

May 31, 2018 and 2017

Note D – Fixed Assets

Fixed assets consist of the following at May 31:

	2018	2017	Life (in years)
Land	\$ 249,956	\$ 249,956	
Building	1,515,620	1,409,925	5 to 40 years
Communication Equipment	956,914	956,914	5 to 7 years
Vehicles	170,409	158,747	5 years
Furniture, Fixtures, and Office Equipment	517,767	517,767	3 to 15 years
Computers and Software	4,057,798	4,020,627	3 to 10 years
	7,468,464	7,313,936	
Less accumulated depreciation	(5,881,714)	(5,528,830)	
	\$ 1,586,750	\$ 1,785,106	

The Organization had depreciation expense for the years ended May 31, 2018 and 2017 of \$440,525 and \$434,166, respectively.

Note E – Retirement Plan

The Organization has entered into an agreement to lease all employees from an employee leasing company. Such agreement may be terminated with a 30 day advance written notice. In accordance with this agreement, the employees are participants in the employee leasing company's 401(k) retirement savings plan. The Organization provides matching contributions based on 75% of the first 6% contributed by the leased employee. Matching contributions for the years ended May 31, 2018 and 2017 were approximately \$105,000 and \$87,000, respectively. In addition, the Organization made safe harbor contributions of 3% of gross compensation for the years ended May 31, 2018 and 2017 of approximately \$104,000 and \$96,000, respectively.

Note F – Concentration of Credit Risk

Financial instruments, which potentially subject the Organization to significant concentrations of credit risk, consist principally of cash and accounts receivable.

The Organization maintains cash balances at high credit quality financial institutions to limit the amount of credit exposure. Accounts at these institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. As of May 31, 2018, cash balances exceeded federally insured limits by approximately \$1,219,000.

Concentrations of credit risk with respect to accounts receivable relates to the Organization's business activity. The Organization monitors this risk and does not anticipate losses beyond the allowance for doubtful accounts.

Sunshine State One-Call of Florida, Inc. d/b/a Sunshine 811

Notes to Financial Statements May 31, 2018 and 2017

Note G – Operating Leases

The Organization leases office equipment under an operating lease with quarterly payments of \$1,454 including sales tax, expiring in 2021. The Organization is committed to minimum lease payments as follows:

2019	\$	5,816
2020		5,816
2021		5,816
Total	\$	17,448

The rent expense relating to these leases amounted to \$4,470 and \$4,435 for the years ended May 31, 2018 and 2017, respectively.

Note H – Commitments and Contingencies

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Organization but which will only be resolved when one or more future events occur or fail to occur. The Organization's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Organization or unasserted claims that may result in such proceedings, the Organization's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Organizations's financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

Note I – Subsequent Events

Subsequent events have been evaluated through July 13, 2018, which is the date the financial statements were available to be issued.

Subject: Resolve to Invest in Kids in 2019
Date: Monday, January 7, 2019 8:59:57 PM

Dear Senator Scott,

Happy New Year! As you work to set your legislative priorities for 2019, I urge you to resolve to invest in kids' futures this year. Specifically, I ask that you help children:

- Live by protecting funding for life-saving care for children around the world. No child should die from preventable illnesses, like pneumonia and diarrhea.
- Learn by expanding access to early learning here at home by addressing the child care desert crisis and support robust funding for Head Start and Child Care and Development Block Grants. All kids should start kindergarten ready to learn.
- Be safe by upholding international agreements that keep children safe in war and conflict zones. All children should be kept safe from harm.

When we invest in kids, we invest in our futures.

I look forward to your response.

Sincerely,

Sincerely,
Leah Stables

FL_GOV Inspector General

From: Leonard Wheeler <lwheeler45@aol.com>
Sent: Monday, January 07, 2019 3:25 AM
To: FL_GOV Inspector General; lwheeler45@aol.com; Kathy.Mears@eog.myflorida.com
Subject: please advise Ron the new governor of the following concerns for which he is now the legally responsible party personally for culpable negligence and child endangerment

The Rick Scott Sec of Transportation and Region V Sec Failed in all material ways to enforce 23 USC Highways US Code and FS copy of same law identically to the federal one

(1) the 23 USC 1995 standards of design REQUIRES sidewalks ADA compliant on both sides of State and subdivision of the state to be ADA II compliant. They are not. US 441 at Ardice connecting to Kurt St fails to meet the requirements of a Commercial road for ADA sidewalks BOTH SIDES of the road. It also FAILS materially to have a posted dangerous when wet MUTCD sign to drivers on Ardice Ave Kurt St and Old My Homer Road to have any warning of the flooded with light rain hydroplane conditions at an intersection for school buses police and fire vehicles. and children who cross the intersection to walk to school the 2 miles that was to be safe to walk under FS introduced by now state judge Larry Metz NOT DONE despite the notice of Region V by the PE that is was City and County duty to do so. I personally had the two bus stops removed due to the danger expressed to me by a rider.

(2) The State Rd 19 Bay Street is non compliant to 23 USC by allowing the construction of a curb and blocked path for pedestrians at the location of WENDYS that illegally trespassed on State Road 19 r/w with construction of a trespassing curb and landscaping preventing pedestrians and walkers strollers and power chairs access safely of the Wendy's. Google the Wendy's at SR 19 and you can see the illegal construction on SR 19 R.W a violation of regional 23 USC standards, for commercial roads.. Negligence per se after notice. I have noted children eating in the facility the one way you get there is walk in the road.

(3) it is prohibited under the first Federal law passed by the first Congress for the damages caused by flooding to private lands by work done by government, City of Windermere in Orange Co has an \$800,000 damages award to just one home. 2013 I have two blocks flooded by a refusal of the City and Lake CO to construct Kurt St and Ruleme and Ardice to such standards for over 20 years I have lived here, I have standing to sue and pleadings the state is a party for allowing it its a recurring violation and child endangerment. two walking miles to public school in the dark in the road.

(4) State of Fla has materially ignored in Region 2 the dangerous conditions of US 295 by ending lanes without required warnings the road was so bad the soon to be retiring Sherriff posted with his own warning sign. The sec of Region 2 was advised by me to stripe it place required reflectors on it or I would have him arrested jailed fined and sue him for the death of a child killed by the ending of the road and loss of control of a car by road debris and loss of lane, It was soon stripped and reflected. smart decision,

(5) US 441 improperly designed bridge rt turn lane resulted in the death of a corvette driver when a car fell on him the FHP did a failure investigation and the expert State witness in deposition refuted the prosecutors position of marijuana as the cause of the accident and FHP did not see the stop sign replaced for about 5 years till I made an issue out of it as a MUTCD violation resulting in death,.

I mention this because I am an engineer formerly with DCA and by law I am obligated to report it to the parties legally required to protect the Fla children or face state prison removal from public office and fines for culpable negligence for allowing it after notice and that right now includes YOU.

I also mention the notice I gave to Rick Scott and Jeb Bush as I am the last living witness of the near failures of the Hoover Levee on Lake O. Rick saw it and lowered the water caused green tide saved loss of fresh water from levee failure for about 5.8 million S and SE fla residents and telling POTUS his gold courses would have no irrigation waters and Mar a Largo would likely be a sandbar from the hoover levee failure noticed as 1 in 6 by Lloyds and BCI engineering Jeb Bush ordered after I warned him of the problem I also warned Rick Scott who lowered the water before it failed.

more than happy to show you this personally and also the missing Rt turnlane left out by Region V at a special needs private school on US 441 that the state left out for the school bus to slow and turn in to the school Phill Maggio has all the correspondence and was the PE that said the state would not fix their mistake the school would need do it. I have the

RE Continued and Ongoing Pattern of Racketeering Upon Miami Courts by Global Criminal Enterprise

Dear Attorney General Pamela Jo Bondi,

Consistent with my previous complaints to your office since August 19, 2011,¹ stemming from the continued and ongoing pattern of racketeering upon the Miami Courts by a Global Criminal Enterprise,² depriving me of my properties and rights upon Miami courts, in furtherance of their schemes,³ now on its seventh continuous year of criminal conduct, showing more than one thousand and three hundred and seventy overt acts⁴ upon the courts, in violation of, *inter alia*, Chapter 885, F.S. ("Florida RICO"), corrupting the courts in Florida in furtherance of schemes, see additional evidence attached herein.

Therefore, the Office of the Florida Attorney General and other responsible officers, must act, pursuant to your sworn responsibilities to, *inter alia*, uphold the laws and the constitution, immediately acting to stop this known Enterprise from further criminal conduct upon Florida courts, preventing the continued and ongoing pattern of racketeering against U.S. citizens, Florida companies, and the judicial machinery, threatening our democracy, as their schemes and powers are spreading in Florida like a deadly virus.

Please feel free to contact me for any additional information or first-hand testimony.

Charles A. Tavares

Re: COMPLAINT AGAINST THE FLORIDA JUDICIAL QUALIFICATIONS COMMISSION ("FJC") FOR FAILING TO FOLLOW ITS MANDATE PURSUANT TO F.S. ART. V, § 12 AND PURSUANT TO MEMBERS' SWORN OATH RELATING TO THE FJC'S RECKLESS DISREGARD FOR CHARLES TAVARES' ("TAVARES") EVIDENCE ON COMPLAINT AGAINST MIAMI JUDGE NORMA S. LINDSEY ("JUDGE LINDSEY"), FOR WILLFUL VIOLATIONS OF JUDICIAL CANONS AND VIOLATIONS OF TAVARES' RIGHTS OFFENDING DUE PROCESS IN FOUR (4) CASES IN MIAMI-DADE COUNTY, FL.

Dear Honorable Governor Scott,

COMES NOW, Complainant Charles A. Tavares ("Tavares"), a U.S. Citizen, pursuant to this complaint against the FJC, for its patent failure to follow its constitutional mandate, under F.S., Art. V, § 12, in failing to properly investigate Tavares' complaint against Judge Lindsey, supported by abundant uncontroversial hard evidence, clearly demonstrating on its face, among other things, violations of the Florida Code of Judicial Conduct ("Judicial Canons"), Canon 1, Canon 2.A.B., Canon 3 A., 8 (1) (2) (5) (8), C.(1) (2), E.(1) (a) (c) (d) (ii) (iii), and F., relating to her willful and reckless presiding, concurrently, four (4) of Tavares' court cases¹ before the Eleventh Judicial Circuit in and for Miami-Dade County, Florida, in known fatal biased and prejudice² against Tavares, as wife of Bank of New York Mellon's counsel, Harold Eugene Lindsey III ("Lindsey III"), further offending the Due Process Clause, causing a grave miscarriage of justice, clearly affecting the perception of justice in Florida

wherefore, the FJC, in reckless disregard for the truth and the record displayed, inexplicably failing to follow its own mandate, and *de facto*, choosing to further obstruct justice and cover up Judge Lindsey's schemes depriving Tavares of rights and properties upon Florida Courts, along with her husband attorney Lindsey III, and others, implicated further failing to follow, among other things, Judicial Canons of Conduct, and the Sworn Oath to uphold the Constitution and the rule of law upon Florida Courts, causing a grave miscarriage of justice in Tavares' cases, gravely affecting the public's perception of justice in Florida and rendering the FJC's actions meaningless

All we asking U.S. Citizens in Florida, **DEMAND** a proper investigation and restoration of rule of law in this matter

cc/Charles A. Tavares: Charles A. Tavares, a U.S. Citizen and a victim of Judge Lindsey's Schemes upon Courts
245 SE 3rd Street, Suite 121 Miami, Florida 33131 - T: (305) 729-0707 EMAIL: ctavares@bell-south.net
Encl: Evidence Showing Scheme by Judge Lindsey and Others - C.C. Florida House of Representatives & Senate

¹ *Waggoner Investment, Inc. v. Charles Tavares, et al.*, a *FLUD* Loan Holdings LLC A/K/A Bank of New York Mellon (Case No. 03-02008-CA-30); *Bank of New York Mellon v. Charles Tavares* (Case No. 10-025868-CA-30); *Shawmut Commercial Plaza, Inc. and The Oak Wash Group, Inc. v. Charles A. Tavares* (Case No. 11-036134-CA-30); *Skateboard National Bank & Trust v. Charles Tavares* (Case No. 11-032137-CA-30).

² On *Bank of New York Mellon v. Charles Tavares* (Case No. 10-025868-CA-30), Judge Lindsey, despite ordered to recuse herself in all Tavares' Cases by Administrative Judge Jennifer D. Bailey, in December 3, 2013, Judge Lindsey knowingly and willfully stayed violating the rule in biased and prejudice against Tavares, until February 26, 2014 Quasi *inter-mediate* Rules, in order to make sure Tavares' family lost their beloved family home out to her husband's claim in generic violations of Judicial Canons, F.S., Fla. Const. and the U.S. Const. Due Process Clause.

Subject: Don't pull the plug on electric cars
Date: Monday, January 7, 2019 12:53:19 PM

Dear Senator Scott,

Dear Senator,

I urge you not to end tax credits for electric vehicles. To protect our air and our climate, we need to transition as fast as possible to clean, electric cars. The Trump administration's plan to end tax credits for electric vehicles would slow our progress.

We should make it easier, not harder, for people to buy electric cars. Please support the electric vehicle tax credits.

Sincerely,

Sincerely,
Joan Hutton

From: Josh Cripps
To: Governor Rick Scott
Subject: Duress - Joshua Cripps
Date: Friday, January 4, 2019 9:30:13 AM

I am writing this email most humbly regarding violations enacted against me in Bay County, Florida. There have been several discrepancies and violations regarding my rights of both civil and business. I own a Non Profit that is set out to better society and also a LLC business in the fields of Construction, Landscaping & Manufacturing. Certain key events have played a role in these violation of rights starting with a conversation to a Bay County Sheriff's Deputy about an illegal drug ring in Bay County. I also signed on as a member of the Panama City Beach Chamber of Commerce and Installed mosaic tile at the Alys Beach Fitness Center in Alys Beach. After these few events occurred I have been maliciously sought out against by Law Enforcement and have relieved bias action against me elsewhere as well. I am from Augusta, Ga and made my home in Panama City Beach, Florida area in 2015. Since moving there I had to find myself and get over issues from my past and have been in trouble with Law enforcement. I do understand that past actions are a reflection in judgment towards present reputation but in this I have successfully challenged myself and overcome most personal faults. Everything I do is set out to fund this non profit I have founded and all my efforts reside in this passion. I want better for people but it seems like my attempts are equally attacked by bias minds. I don't know what to do in this situation because I have no support and have not found an answer to this solution. I wait patiently for God to lead me in the right direction and have Faith in this yet I still cannot help but to worry about future events in Bay County. I have come to Augusta, Ga to maintain my business and am needing to return today. I have jobs that are open still and I am obligated to these responsibilities. I have created a 1 Love sticker campaign symbolic of Hurricane Michael Re-build Efforts and also symbolic of a Trust fund for less fortunate citizens who were impacted by Hurricane Michael. Things in Bay County had gotten to the point that I was worried for my own safety and the safety of my businesses, so much so that I reached out to the Cyber Command Community to help me with my delima. I ask that you take much regard to this email and my situation and help me resolve this travesty so that I may continue my efforts in helping this community and helping American Society as well. I have been blessed with struggle helping me find both wisdom and strength. Please help me in my efforts. Thank You and may God continue to bless.

Yours truly,
Joshua L Cripps

Employment Verification Request

Jan 7, 2019

Executive Office of the Governor Scott
Attention: Executive Office of the Governor Scott
Email: rick.scott@eog.myflorida.com

Dear Human Resources Professional,

This Employment Verification Request has been sent to you from HireRight to verify employment for the specific individual listed below.

As a global provider of employment screening services, HireRight understands the importance of your time and hopes that below outlined verification process will help make your work associated with employment verifications a little easier. Because this is time sensitive for verifying background screening information, we thank you in advance for assisting us in confirming the information as quickly as possible.

This Employment Verification Request is to ask you to verify the employment history of Andrew Ketchel*.

- **Simply complete the attached form and fax the entire page to (800) 475-6074 (inside US and Canada) or 001-949-224-6064 or email to documentation@hireright.com.**
- **There is no need to include a cover sheet with this form (if returning via fax).**
- **We are requesting a response by Jan 8, 2019.**

HireRight would like to draw your attention to your obligation as a referee to only provide fair and accurate responses and that as a referee you must exercise reasonable skill and care to ensure that any reference provided is true, accurate and not misleading. If any local laws, employment or otherwise, prevent you from completing this reference please notify HireRight.

Finally, as a reference is likely to constitute personal information a referee should note that the candidate may have a right to request a copy of the reference provided.

We appreciate your attention to this request. Should you have any questions, do not hesitate to contact us. Thank you for your assistance.

Sincerely,

Hyra Reyes

Subject: FURLOUGH
Date: Monday, January 7, 2019 1:39:00 PM

GOOD EVENING SIR,

What are you doing to end this furlough? I work for the Bureau of Prisons. My coworkers and I are behind locked doors at least 40 hours a week without compensation. Are you? If not, how do you really feel about our situation? Are you doing anything to remedy it? We are protecting our society day in and out by maintaining accountability of these individuals who committed crimes against our community yet we are not compensated for it. What if, hypothetically speaking, we decided to secure them in their cells, secure the entrance to their units, secure the entrance to the institution, and leave. What do you think will happen? Do you give us permission to do this?

These individuals are receiving extra visitation from their families and we are being mandated to work overtime to ensure these visits are conducted accordingly. We are being told to stay an extra 8 hours, without pay so that inmates can receive special visits when they've already received their visits for the month. How fair is this? What type of message is this sending to us and the inmates.

The new year just began. The first of the month just past. Bills are becoming due. Soon myself and others, including companies and banks, will be writing to state our inability to pay bills amongst other things. Have you planned for this? Will we lose our job because we can't pay our just debts? Are people receiving raises while we aren't getting paid? Can you reduce some of those large salaries to help out other agencies?

Well, I have to make rounds now. Can't be out of sight for no more than 30 minutes. I also realize you have many tasks to do so I won't keep you. I really hope you consider all this info that I have jotted down. Do not allow this furlough to last for the sake of a WALL. Folks will crawl under or fly over it.

Thanks for reading

FL_GOV Inspector General

From: Leonard Wheeler <lwheeler45@aol.com>
Sent: Monday, January 07, 2019 3:25 AM
To: FL_GOV Inspector General; lwheeler45@aol.com; Kathy.Mears@eog.myflorida.com
Subject: please advise Ron the new governor of the following concerns for which he is now the legally responsible party personally for culpable negligence and child endangerment

The Rick Scott Sec of Transportation and Region V Sec Failed in all material ways to enforce 23 USC Highways US Code and FS copy of same law identically to the federal one

(1) the 23 USC 1995 standards of design REQUIRES sidewalks ADA compliant on both sides of State and subdivision of the state to be ADA II compliant. They are not. US 441 at Ardice connecting to Kurt St fails to meet the requirements of a Commercial road for ADA sidewalks BOTH SIDES of the road. It also FAILS materially to have a posted dangerous when wet MUTCD sign to drivers on Ardice Ave Kurt St and Old My Homer Road to have any warning of the flooded with light rain hydroplane conditions at an intersection for school buses police and fire vehicles. and children who cross the intersection to walk to school the 2 miles that was to be safe to walk under FS introduced by now state judge Larry Metz NOT DONE despite the notice of Region V by the PE that is was City and County duty to do so. I personally had the two bus stops removed due to the danger expressed to me by a rider.

(2) The State Rd 19 Bay Street is non compliant to 23 USC by allowing the construction of a curb and blocked path for pedestrians at the location of WENDYS that illegally trespassed on State Road 19 r/w with construction of a trespassing curb and landscaping preventing pedestrians and walkers strollers and power chairs access safely of the Wendy's. Google the Wendy's at SR 19 and you can see the illegal construction on SR 19 R.W a violation of regional 23 USC standards, for commercial roads.. Negligence per se after notice. I have noted children eating in the facility the one way you get there is walk in the road.

(3) It is prohibited under the first Federal law passed by the first Congress for the damages caused by flooding to private lands by work done by government, City of Windermere in Orange Co has an \$800,000 damages award to just one home. 2013 I have two blocks flooded by a refusal of the City and Lake CO to construct Kurt St and Ruleme and Ardice to such standards for over 20 years I have lived here, I have standing to sue and pleadings the state is a party for allowing it its a recurring violation and child endangerment. two walking miles to public school in the dark in the road.

(4) State of Fla has materially ignored in Region 2 the dangerous conditions of US 295 by ending lanes without required warnings the road was so bad the soon to be retiring Sheriff posted with his own warning sign. The sec of Region 2 was advised by me to stripe it place required reflectors on it or I would have him arrested jailed fined and sue him for the death of a child killed by the ending of the road and loss of control of a car by road debris and loss of lane, It was soon stripped and reflected. smart decision,

(5) US 441 improperly designed bridge rt turn lane resulted in the death of a corvette driver when a car fell on him the FHP did a failure investigation and the expert State witness in deposition refuted the prosecutors position of marijuana as the cause of the accident and FHP did not see the stop sign replaced for about 5 years till I made an issue out of it as a MUTCD violation resulting in death,.

I mention this because I am an engineer formerly with DCA and by law I am obligated to report it to the parties legally required to protect the Fla children or face state prison removal from public office and fines for culpable negligence for allowing it after notice and that right now includes YOU.

I also mention the notice I gave to Rick Scott and Jeb Bush as I am the last living witness of the near failures of the Hoover Levee on Lake O. Rick saw it and lowered the water caused green tide saved loss of fresh water from levee failure for about 5.8 million S and SE Fla residents and telling POTUS his gold courses would have no irrigation waters and Mar a Largo would likely be a sandbar from the Hoover levee failure noticed as 1 in 6 by Lloyds and BCI engineering Jeb Bush ordered after I warned him of the problem I also warned Rick Scott who lowered the water before it failed.

more than happy to show you this personally and also the missing Rt turnlane left out by Region V at a special needs private school on US 441 that the state left out for the school bus to slow and turn in to the school Phill Maggio has all the correspondence and was the PE that said the state would not fix their mistake the school would need do it. I have the

photos showing where the FDOT ground out the right turn lane in front of the school. First child injured Phil and the PE in Region 5 allowing it are going to get felony charged for allowing it, and since it is culpable negligence I will likely add you too.

you really need to fix the right turn lane like it was before your FDOT removed it when they repaved..

Have a great day.

Greetings,

Please find attached to this message an assistance request sent to Senator Marco Rubio from Mr. Richard Abdullah. Mr. Abdullah is seeking assistance with the loss of two thirds of a parcel of land due to a determination that the land is wetlands. A review of this matter has determined that the issue needs to be addressed by the Florida Department of Environmental Protection.

Please have this matter reviewed and contact me if I can be of any assistance.

Best Regards,

David

IF YOU NEED MORE SPACE, PLEASE CONTINUE ON A SEPARATE SHEET.

THIS STATEMENT MUST BE LEGIBLE & IN ENGLISH. PLEASE DO NOT SIMPLY WRITE "SEE ATTACHED."

Please remember that a congressional inquiry does not guarantee your desired outcome.

The Dept. of Environmental Regulation has decided that 2/3 of a parcel of vacant land is wetland, leaving only 1/3 which can be used as upland. This is an outrage. I wish to have the right to use all of my land, and not just 1/3 of it. Richard Abdullah

Greetings,

Please find attached to this message an assistance request sent to Senator Marco Rubio from Mr. Richard Abdullah. Mr. Abdullah is seeking assistance with the loss of two thirds of a parcel of land due to a determination that the land is wetlands. A review of this matter has determined that the issue needs to be addressed by the Florida Department of Environmental Protection.

Please have this matter reviewed and contact me if I can be of any assistance.

Best Regards,

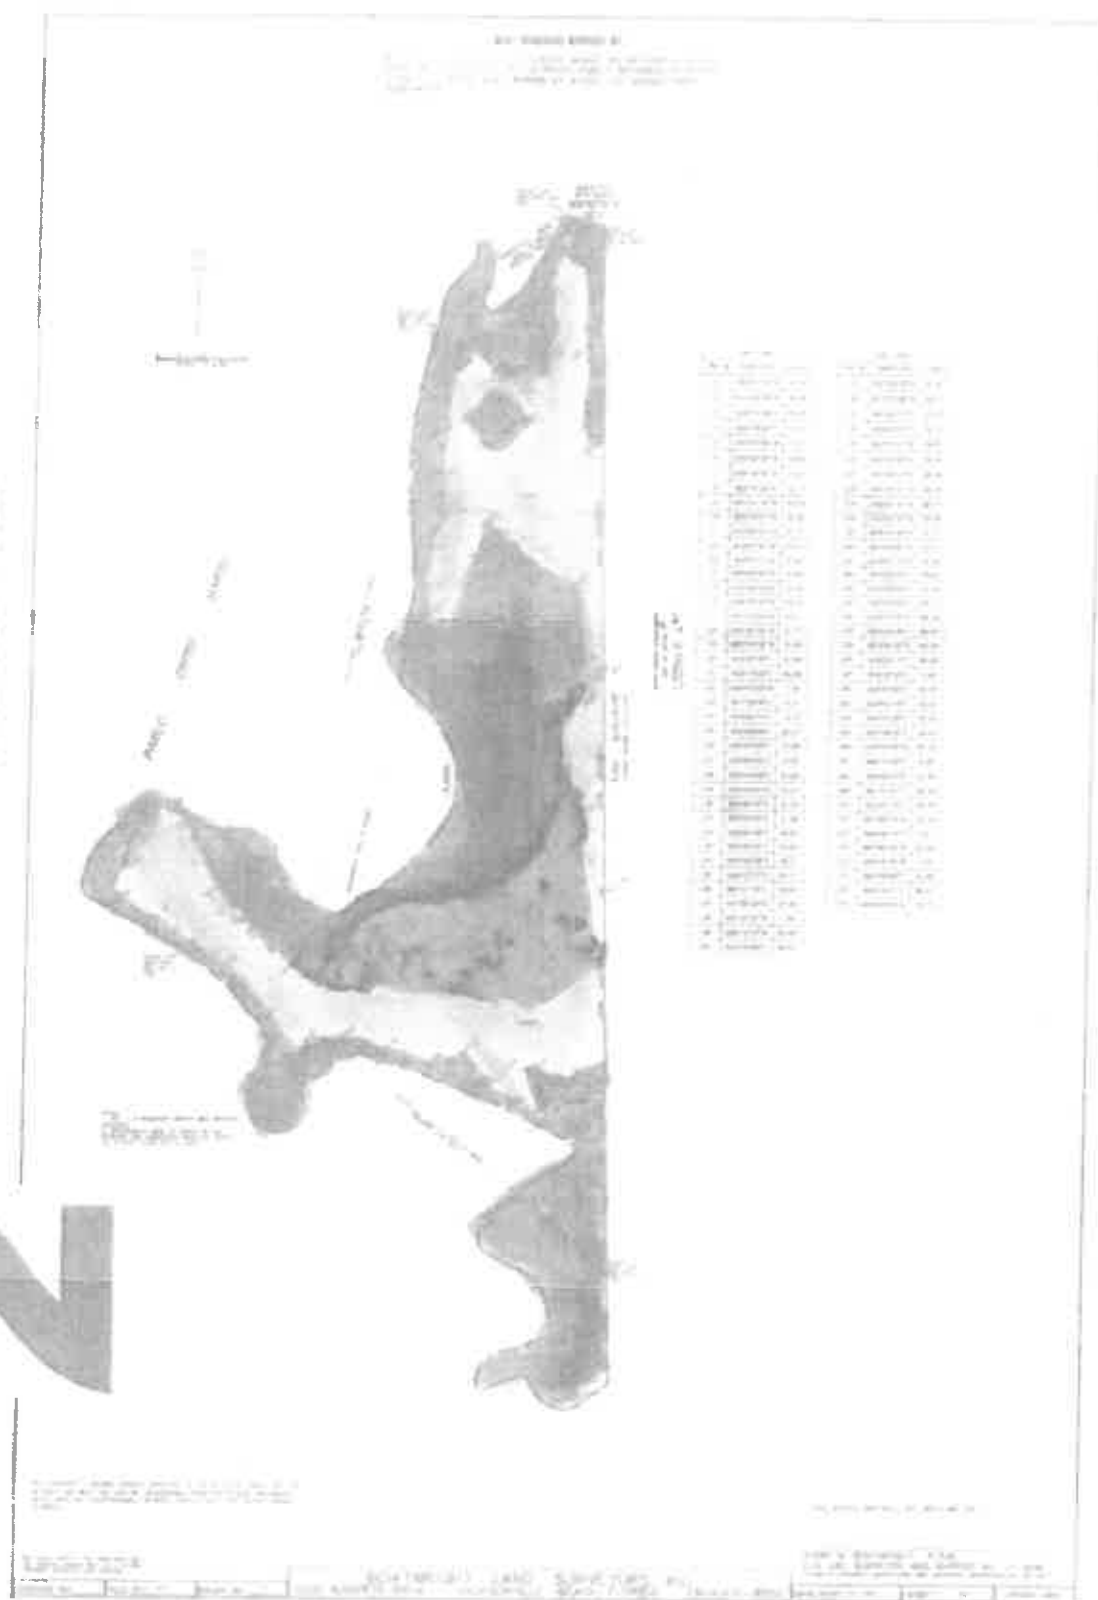

David

Employment Verification Request

Jan 7, 2019

Executive Office of the Governor Scott
Attention: Executive Office of the Governor Scott
Email: rick.scott@eog.myflorida.com

Dear Human Resources Professional,

This Employment Verification Request has been sent to you from HireRight to verify employment for the specific individual listed below.

As a global provider of employment screening services, HireRight understands the importance of your time and hopes that below outlined verification process will help make your work associated with employment verifications a little easier. Because this is time sensitive for verifying background screening information, we thank you in advance for assisting us in confirming the information as quickly as possible.

This Employment Verification Request is to ask you to verify the employment history of Andrew Ketchel*.

- Simply complete the attached form and fax the entire page to (800) 475-6074 (inside US and Canada) or 001-949-224-6064 or email to documentation@hireright.com.
- There is no need to include a cover sheet with this form (if returning via fax).
- We are requesting a response by Jan 8, 2019.

HireRight would like to draw your attention to your obligation as a referee to only provide fair and accurate responses and that as a referee you must exercise reasonable skill and care to ensure that any reference provided is true, accurate and not misleading. If any local laws, employment or otherwise, prevent you from completing this reference please notify HireRight.

Finally, as a reference is likely to constitute personal information a referee should note that the candidate may have a right to request a copy of the reference provided.

We appreciate your attention to this request. Should you have any questions, do not hesitate to contact us. Thank you for your assistance.

Sincerely,

Hyra Reyes
